

**December 29th, 2022**

**Zoning board of appeal**

Dear board members:

Greeting

I would kindly ask you to approve extending the attached variances, which you granted in February 2022 for the residential single family home building 70 Bates Point Rd., Webster, MA.

As you instructed us to apply for approval from other boards, which we recently received final approvals from the planning board and the lake conservation committee.

We are now going through the architectural and engineering phase of the house. Once completed we anticipate the construction phase to start in mid to late summer of 2023.

I would greatly appreciate your understanding, approving this necessary extension.

Sincerely yours

property owner

**Hadeer Shaikhly**
