

TOWN OF WEBSTER
STREET LIGHTING POLICY

It is the Policy of the Board of Selectmen that the Town of Webster will provide lighting for the illumination of streets at the following locations:

- Intersections of all streets with collector and arterial streets
- Intersections of residential streets only where a known hazard exists
- Curves that are hazardous in the opinion of the Town Engineer
- High crime areas as determined by the Chief of Police
- Crosswalks and school crossing guard locations
- Walk to school routes, where deemed necessary by the Superintendent of Schools
- Other locations having a high accident record

In doing so, we affirm that public safety is a primary objective of the Board of Selectmen in formulating this Street Lighting Policy, and that public safety shall be the primary goal used in it's application.

Adopted: March 9, 2009
