

The four D's to ease cravings:

1. **Delay** - Wait out the urge to smoke. It will pass in a few minutes.
2. **Deep Breathing** - Breathe in slowly and as deeply as you can, and then breathe out slowly. Repeat this 5 times.
3. **Drink Water** - Sip the water slowly and hold it in your mouth a little while.
4. **Distract** - Do something that takes your mind off of smoking for a few minutes.

Why should you quit?

- **Save money** - A pack-a-day smoker who pays \$8.50 for a pack of cigarettes will spend over \$3,100 per year!
- **Improve your health** - Smoking takes away from how well and how long you live.
- **Improve the health of your family and friends** - Secondhand smoke from your lit cigarette hurts the children and people you love. It also hurts your pets.
- **If you quit, your children are less likely to start smoking** - and if they smoke they are more likely to quit.

The following organizations support you being tobacco-free:

Worcester Community Smoking Cessation Resource Guide

Become tobacco-free today!

Quitting smoking can be hard, but there are ways to make it easier.

Using quit-smoking medicines and counseling support can make you *more than twice as likely* to quit for good!

September 2013

How do I talk with my doctor about becoming tobacco-free?

Many people don't know what to ask or where to start. Here are some tips to make the conversation a little bit easier.

- ❑ Write down questions you have for your doctor regarding quitting smoking.
- ❑ Think about your past quit attempts and why you think they did not work.
- ❑ Tell your doctor you are ready to quit and why.
- ❑ Pick a quit date and share that date with your doctor.
- ❑ Talk to your doctor about a quit plan, including which medication or medication combinations may be right for you.

FDA approved quit smoking medications:

Medication	Availability
Nicotine Patch*	Over-the-Counter
Nicotine Gum*	Over-the-Counter
Nicotine Lozenge*	Over-the-Counter
Nicotine Inhaler	Prescription
Nicotine Nasal Spray	Prescription
Zyban	Prescription
Chantix	Prescription

* May require a prescription to be covered by health insurance.

How do I find out what kind of benefits I have?

Many health insurance plans help cover the cost of counseling support and medications. To find out what kind of benefits you have, call the member services number listed on the back of your health plan card.
