**Re: Arrest for Break in at Night**

On March 6, 2007 at approximately 0030 hours, Sergeant Michael Shaw and Officer Michael Reardon responded to 28 1/2 Mechanic Street for a past break in.

Upon their arrival they found the door to the apartment had been severely damaged, so much so that they had to force their way in to the apartment as it would no longer open. The occupant was unable to open the door from the inside, and the police could not open it from the outside. They also learned the break in had occurred while the occupant was home and asleep.

Police learned that David Nordstrom, 18 Upland Avenue Webster, 8/7/80, had forced his way into the apartment, fought with the resident inside, taking a cellular telephone in the process, and then fled the apartment. The two did know each other from a prior relationship.

Area Police Departments were notified via telephone and radio. Douglas Police located Nordstrom at 11 Roslyn Road a short while later, where he was taken into custody. He was later transferred to Webster Police where he was charged with the following offenses:

Burglary with an Assault on the Occupant  
Wanton Destruction of Property over \$250.00  
Larceny over \$250.00  
Domestic Assault and Battery.

At the time of this release, Nordstrom is being held on \$2500.00 cash bail at the Webster Police Department. He will be arraigned at Dudley District Court tomorrow morning (3/6/07)
