

TOWN OF Webster

FINANCIAL POLICIES MANUAL

INTRODUCTION

The Town of Webster is committed to safeguarding public funds, protecting local assets, and complying with financial standards and regulations. To that end, this manual of financial policies provides guidance for local planning and decision making. The policies, as a whole, are intended to outline objectives, provide formal direction, and define authority to help ensure sound fiscal stewardship and management practices. Each policy is a living document that should be reviewed periodically and updated as necessary.

With these policies, the Town of Webster, through the Board of Selectmen, Finance Committee, Town Administrator, and employees, commits to the following objectives:

- Sustaining a consistent level of service and value for residents and businesses
- Safeguarding financial integrity and minimizing risk through a system of internal controls
- Ensuring the quality and maintenance of capital assets
- Conforming to general law, uniform professional standards, and municipal best practices
- Protecting and enhancing the town's credit rating
- Promoting transparency and public disclosure

COMMUNITY PROFILE

Located in Central Massachusetts, Webster (population 16,767) offers the benefits of small town living within a convenient distance to 5 major cities: Springfield, Worcester, Boston, Hartford and Providence. Offering convenient access to I-395, I-90, I-290 and I-84, Webster has been growing into a bedroom community.

Operating with an annual operating budget of slightly over \$43 million the Town of Webster offers many municipal services. These include, police, fire, highway, senior social services, veteran services, and water sewer services. As a measure of relative wealth, the town's per capita income and average single family home values are below Worcester County averages. The town's tax rate is also below most Worcester County towns.

The following are major revenue sources to the Town of Webster (1) funds generated from property taxes, (2) local motor vehicle excise taxes, (3) other excise taxes, (4) state aid, (5) PILOT payments, (6) fees, (7) rentals, (8) departmental revenues, (9) licenses and permits, (10) fines and forfeits, (11) investment earnings, (12) other miscellaneous revenue and (13) other financing sources.

As of the 2018 budget, Webster faces many challenges. One of which is funding and then maintaining a healthy balance in the reserve fund. The current Town Administrator and Board of Selectmen have agreed to build the foundation with the following financial practices. By adopting formal policies that promote fiscal stability and reinforce internal controls, local officials can strengthen Webster's overall financial management operations. These policies are a key component, along with a capital plan, long-range forecast, and a transparent and user-friendly budget document, in ensuring public faith in municipal management.

FINANCIAL MANAGEMENT LAYOUT

Webster's legislative power is vested in an open town meeting, while executive authority falls to the elected, five-member board of selectmen. The town charter, local bylaws and state statutes govern day-to-day operations. The selectmen are responsible for setting town goals, establishing policy, appointing local officials and managing the affairs of the town. With a limited number of elected officials, Webster's vertical structure concentrates a high degree of authority under the board of selectmen. To oversee daily affairs, the select board appoints a full-time town administrator and town accountant. The town elects the treasurer, assessor and town collector. The town administrator is the direct supervisor of all town department heads and is also delegated to serve in the following additional capacities: budget coordinator, personnel director, chief procurement officer, community liaison, public relations director, and general manager of municipal affairs.

The town's finance committee is made up of both appointed and elected members. In their advisory capacity, the finance committee considers all matters relating to the appropriation and expenditure of money by the town, and makes reports and recommendations.

The board of selectmen and town administrator are to be commended for recognizing the importance of formal, written policies and addressing these. All the policies in this manual are presented for review and approval by the board of selectmen and other local officials as applicable. Each should be considered a living document to be periodically reassessed, modified, and agreed to as conditions change. As large as the manual is, it still does not cover all areas suitable for policies, and the town should contemplate building further on this foundation.

CAPITAL PLANNING

PURPOSE

To provide a means for planning the maintenance and improvement of capital assets and infrastructure, this policy outlines guidance for reviewing, planning, and coordinating capital improvements. This policy also promotes a systematic acquisition and replacement schedule and to ensure that, given limited resources, the Town's capital needs are met.

APPLICABILITY

This policy establishes a framework for long-term capital planning, sets guidelines and expectations for all Town departments in planning for and requesting capital projects, and outlines consensus budgetary goals for the Town Administrator and Board of Selectmen.

POLICY

The Town will maintain its physical assets by providing funding in the operating budget to protect its capital investments and minimize future maintenance and replacement costs. The Town sustains a capital improvement program (CIP) overseen by the Town Administrator to identify and prioritize projects, analyze funding, and create a long-term financial plan achievable within the Town's budget limitations. The Town will sustain a five-year plan for capital improvements, which will be updated annually. Included in the CIP will be those projects that will provide and preserve the infrastructure needed to achieve the highest levels of public services and quality of life possible within the available financial resources. The Town will emphasize preventive maintenance as a cost-effective approach to capital reinvestment and replace exhausted goods as necessary.

A. Definition of a CIP Project

A capital improvement is a tangible asset or project estimated to cost over \$25,000 and estimated to have or to extend, five or more years of useful life. These include:

- Real property acquisitions, construction, and long-life capital equipment
- Major improvements to physical infrastructure, including streets, sidewalks, storm water drains, water distribution systems, and sanitary sewer systems
- Major renovations of existing capital items that extend their useful lifespans, as distinguished from normal operating expenditures
- Planning, feasibility studies, and designs for potential capital projects
- Items obtained under a long-term capital lease
- Bulk purchases of similar items, like software or furniture, with expected useful lifespans of five or more years that, when aggregated, have total costs exceeding the capital threshold

B. Evaluation of CIP Projects

The Town Administrator orchestrates the CIP. Only projects that have gone through the Town Administrator's review process will be included in the CIP unless required by an emergency, in which case, a written report explaining the emergency must be provided to the Town Administrator and Board of Selectmen.

The Town Administrator will evaluate and prioritize capital projects using the below criteria:

- Eliminates a hazard to public health and safety
- Required by state or federal laws or regulations

- Supports adopted plans, goals, objectives, and policies
- Stabilizes or reduces operating costs
- Replaces a clearly obsolete facility or makes better use of an existing facility
- Maintains or improves productivity or existing standards of service
- Directly benefits the Town's economic base by protecting and increasing property values
- Provides new programs having social, cultural, historic, economic, or aesthetic value
- Uses outside financing sources, such as grants

C. Multiyear Capital Plan

The Town Administrator will annually update and propose for adoption by the Board of Selectmen and Finance Committee a five-year capital improvement plan, including the upcoming fiscal year's capital improvement budget and a four-year projection of capital needs and expenditures that details their estimated costs, descriptions, and anticipated funding sources.

D. Capital Financing

Long-term debt is an appropriate funding source for certain types of projects, while current revenues should be used for assets with short useful lifespans. The Town will attempt to fund three - five percent of the general fund operating budget, net of debt, on capital investment allocations. Funding shall be derived from a combination of property taxes and the general stabilization fund.

The CIP shall be prepared and financed in accordance with the following policies:

- Grant funding shall be pursued and used to finance the capital budget whenever possible.
- Capital projects for the enterprise fund shall be financed solely from the fund's revenues.
- The annual operating costs of each proposed capital project, as well its debt service costs, shall be identified before any long-term, bonded capital project is recommended.
- Major capital projects, such as new construction or major renovations to existing facilities, may be accomplished through capital or debt exclusions.

E. Capital Project Closeouts

The Town will endeavor to close out all capital projects within six months of completion. As these projects are closed out, the Town Accountant will do the following:

- For bonded projects with residual balances, the Town Administrator and Town Accountant and Treasurer will propose reallocating any balances for other applicable capital projects.
- For projects funded with available revenue (tax levy or reserves) having residual balances, the Town Administrator and Town Accountant will propose reallocating the balances for other capital projects or close the balances to the appropriate fund surplus.

DEBT MANAGEMENT

PURPOSE

To provide for the appropriate issuance and responsible use of debt, this policy defines the parameters and provisions governing debt management. Policy adherence will help the Town to responsibly address capital needs, provide flexibility in current and future operating budgets, control borrowing, and maintain capital investment capacity. This policy is also intended to maintain and enhance the town's bond rating so as to achieve long-term interest savings.

APPLICABILITY

This policy applies to the Board of Selectmen and Town Administrator in their budget decision making and in the Treasurer's debt reporting and statutory responsibilities associated with debt management.

POLICY

Under the requirements of federal and state laws, the Town of Webster may periodically issue debt obligations to finance the construction, reconstruction, or acquisition of infrastructure and other assets or to refinance existing debt. The Town will issue and manage debt obligations in such a manner as to obtain the best long-term financial advantage and will limit the amount of debt to minimize the impact on taxpayers. Debt obligations, which include general obligation bonds, revenue bonds, bond anticipation notes, lease/purchase agreements, and any other debt obligations permitted to be issued under Massachusetts law, will only be issued to construct, reconstruct, or purchase capital assets that cannot be acquired with current revenues.

A. Debt Financing

In financing with debt, the Town will:

1. Issue long-term debt only for objects or purposes that are financially supported and authorized by state law
2. Use available funds to the greatest extent possible to reduce the amount of borrowing on all debt-financed projects
3. Strive to confine long-term borrowing to capital improvements and projects that cost at least \$100,000 and that have useful lifespans of at least five years or whose lifespans will be prolonged by at least five years
4. Prohibit using debt to fund any recurring purpose, such as current operating and maintenance expenditures
5. Use revenue bonds, special assessment bonds, or other types of self-supporting bonds instead of general obligation bonds whenever possible
6. For the enterprise operations, set user fees to cover capital costs to the extent practicable

B. Debt Limits

The Town will adhere to these debt parameters:

1. Total debt service, including debt exclusions and self-supporting debt, shall be limited to 10 percent of general fund revenues, with a target balance of five - seven percent.
2. By statute, a community's debt limit equals five percent of its most recent equalized valuation.

C. Structure and Term of Debt

The following shall be the Town's guidelines on debt terms and structure:

1. The Town will attempt to maintain a long-term debt schedule such that at least 50 percent of outstanding principal will be paid within 10 years.
2. The term of any debt shall not exceed the expected useful life of the capital asset being financed and, in no case, shall it exceed the maximum allowable by law.
3. The Town will limit bond maturities to no more than 10 years, except for major buildings, sewer and waste water control facility projects, land acquisitions, and other purposes in accordance with the [useful life borrowing guidelines](#) promulgated by the Division of Local Services or as recommended by the financial advisor.
4. The Town will work closely with its financial advisor to follow federal regulations and set time frames for spending borrowed funds to avoid committing arbitrage, paying rebates, fines and penalties to the federal government, and jeopardizing the debt issuance's tax- exempt status.

D. Protection of Bond Rating

To protect its bond rating, the Town will:

1. Maintain good communications with bond rating agencies, bond counsel, banks, financial advisors, and others involved in debt issuance and management.
2. Follow a policy of full disclosure on every financial report and bond prospectus, including data on total outstanding debt per capita, as a percentage of per capita personal income, and as a percentage of total assessed property value.

E. Reporting

1. The Treasurer and financial advisor will report to the Town Administrator, Board of Selectmen, and the Finance Committee on the Town's debt status at least annually.
2. The Treasurer with review by the Town Administrator will include a statement of debt in the annual report.

FINANCIAL RESERVES

PURPOSE

To help the Town stabilize finances and maintain operations during difficult economic periods, this policy establishes prudent practices for appropriating to and expending reserve funds. With well-planned sustainability, Webster can use its reserves to finance emergencies and other unforeseen needs, to hold money for specific future purposes, or in limited instances, to serve as revenue sources for the annual budget. Reserve balances and policies can also positively impact the Town's credit rating and consequently its long-term cost to fund major projects.

APPLICABILITY

This policy pertains to short- and long-range budget decision making and applies to the Board of Selectmen, Town Administrator, and Finance Committee in those duties. It also applies to the related job duties of the Town Accountant, Water and Sewer Department, and Board of Assessors.

POLICY

The Town of Webster commits to building and maintaining its reserves so as to have budgetary flexibility for unexpected events and significant disruptions in revenue-expenditure patterns and to provide a source of available funds for future capital expenditures. The Town will strive to maintain overall reserves in the level of five to eight percent of the annual operating budget. Adherence to this policy will help the Town withstand periods of decreased revenues and control spending during periods of increased revenues. There are multiple types of reserves, including free cash, stabilization funds, retained earnings, and overlay surplus.

A. Free Cash

The Division of Local Services (DLS) defines free cash as "the remaining, unrestricted funds from operations of the previous fiscal year, including unexpended free cash from the previous year." DLS must certify free cash before the Town can appropriate it.

By September 30th each year, the Town Accountant will submit to DLS a year-end balance sheet, free cash checklist, and year-end reporting checklist. Once DLS certifies free cash, the Town Accountant will review any reduction to the certified balance and provide the Town Administrator a detailed explanation and subsequent year remediation plan.

The Town will set a year-to-year goal of maintaining its free cash in the range of one - five percent of the annual budget. To achieve this, the Town Administrator will propose budgets with conservative revenue projections, and department heads will carefully manage their appropriations to produce excess income and budget turn backs.

The Town will endeavor to transfer a minimum of 20 percent of the certified free cash to the general stabilization fund until the fund reaches the established guidelines. As much as practicable, the Town will limit its use of free cash to funding one-time expenditures (like capital projects or emergencies and other unanticipated expenditures). alternately, budget decision makers may reserve a portion of the remaining free cash to avoid fully depleting the Town's free cash so that the succeeding year's calculation can begin with a positive balance.

B. Stabilization Funds

A stabilization fund is a reserve account allowed by state law to set aside monies to be available for future spending purposes, including emergencies or capital expenditures, although it may be appropriated for any lawful purpose. Prior to the adoption of this policy, the Town established and appropriated to a general stabilization fund.

General Stabilization: The Town will endeavor to maintain a minimum balance of five percent of the current operating budget in its general stabilization fund. Withdrawals from general stabilization should only be used to mitigate emergencies or other unanticipated events that cannot be supported by current general fund appropriations. When possible, withdrawals of funds should be limited to the amount available above the five percent minimum reserve target level. If any necessary withdrawal drives the balance below the minimum level, the withdrawal should be limited to one-third of the general stabilization fund balance. Further, the Town Administrator will develop a detailed plan to replenish the fund to the minimum level within the next two fiscal years.

Capital Stabilization: From time to time, the Town will appropriate to the capital stabilization fund so that over time it achieves a target balance sufficient to cover the Town's cash outlay for capital. Doing so enables the Town to pay outright for moderate-range capital expenditures and thereby preserve debt capacity for major, higher-dollar purchases or projects. This approach balances debt with pay-as-you-go practices and protects against unforeseen costs.

C. Retained Earnings

The Town has separate enterprise funds to provide water and sewer utilities. By accounting for each utility's revenues and expenditures in individual funds segregated from the general fund, the Town can identify the true costs of each service—direct, indirect, and capital—and recover these through user fees and other fees. Under this accounting, the Town may reserve each operation's generated surplus (referred to as retained earnings or, alternatively, as net assets unrestricted) rather than closing the amount out to the general fund at year-end.

For each enterprise fund, the Town will endeavor to maintain a reserve amount at 20 percent of the utility's total budget, at minimum, but any reserve may be significantly higher if major infrastructure improvements are necessary. These reserves shall be used to provide rate stabilization and to fund major, future capital projects. To maintain the target reserve levels for each enterprise requires the Water and Sewer departments to periodically review, and when necessary, adjust user rates.

D. Overlay Surplus

The overlay is a reserve the Town uses to offset unrealized revenues resulting from property tax abatements and exemptions. Webster officials will prudently manage the overlay in accordance with the Town's Overlay policy to avoid the need to raise overlay deficits in the tax levy.

At the conclusion, of each fiscal year, the Assessor will submit to the Town Administrator and Town Accountant an update of the overlay reserve with data that includes, but is not limited to, the gross balance, potential abatement liabilities, and any transfers to surplus. If the balance exceeds the amount of potential liabilities, the Board of Selectmen may request that the Assessor vote to declare those balances surplus available for use in the Town's capital improvement plan or for any other one-time expense.

This policy was adopted on [_____]

FORECASTING

PURPOSE

To assess the range of choices available to budget decision makers when determining how to allocate resources, this policy establishes guidelines for evaluating revenue sources and the requirement to determine an expenditure strategy as part of the annual budget process and longer range fiscal planning. Forecasting helps local officials understand the long-range implications of pending near-term decisions.

APPLICABILITY

This policy applies to the Board of Selectmen, Finance Committee and the Town Administrator in their budget analysis and decision-making responsibilities. It also applies to the job responsibilities of the Town Accountant, and all the managers of revenue-generating departments, including the Town's Water and Sewer Departments.

POLICY

A. Revenue Guidelines

The Town will continuously seek to diversify its revenue to improve the equity and stability of sources. Each year and whenever appropriate, the Town will reexamine existing revenues and explore potential new sources. A balance will be sought between elastic and inelastic revenues to minimize any adverse effects caused by inflation or other economic changes. Additionally, intergovernmental revenues (e.g., local aid, grants) will be reviewed annually to determine their short- and long-term stability in order to minimize detrimental impacts.

The Town will avoid using one-time revenues to fund ongoing or recurring operating expenditures. These one-time revenue sources can include, but are not limited to, free cash, overlay surplus, sale of municipal equipment, legal settlements, insurance proceeds, and gifts. Additionally, the Town hereby establishes the following priority order when appropriating one-time revenues:

- General stabilization fund
- Capital stabilization fund
- Cash capital budget
- OPEB trust fund

Economic downturns or unanticipated fiscal stresses may compel reasonable exceptions to the use of one-time revenue. In such cases, the Town Administrator, can recommend to the Board of Selectmen its use for operational appropriations. Such use will trigger the Town Administrator to develop an action plan to avoid continued reliance on one-time revenues.

Historically, bond premiums (net of issuance costs) have been considered general one-time revenue to be used as an available source. [Chapter 218 of the Acts of 2016](#) amends current law by allowing communities to either apply the proceeds to the issuance, thereby reducing the amount needed to borrow, or to place the money in a separate fund and appropriate it for a future capital project.

State laws impose further restrictions on how certain types of one-time revenues may be used. The Town will consult the following General Laws when the revenue source is:

- Sale of real estate: [M.G.L. c. 44, §63](#) and [M.G.L. c. 44, §63A](#)
- Gifts and grants: [M.G.L. c. 44, §53A](#) and [M.G.L. c. 44, §53A½](#)

This policy further entails the following expectations regarding revenues:

- The Assessing department will maintain property assessments for the purpose of taxation at full and fair market value as prescribed by state law.
- Town departments that charge fees will annually review their fee schedules and propose adjustments when needed to ensure coverage of service costs.
- The Water/Sewer departments will recommend rates for the enterprise operations sufficient to cover all their direct, indirect, and capital improvement costs on self-supporting bases.
- The building department will notify the Town Administrator of any moderate-to-large developments that could impact building permit volume.
- Department heads will strive to seek out all available grants and other aid and will carefully consider any related restrictive covenants or matching requirements (both dollar and level-of-effort) to determine the cost-benefit of pursuing them.
- Revenue estimates will be adjusted throughout the budget cycle as more information becomes available.

B. Expenditure Guidelines

Annually, the Town will determine a particular budget approach for forecasting expenditures, either maintenance (level service), level funded, or one that adjusts expenditures by specified increase or decrease percentages (either across the board or by department). A maintenance budget projects the costs needed to maintain the current staffing level and mix of services into the future. A level-funded budget appropriates the same amount of money to each municipal department as in the prior year and is tantamount to a budget cut because inflation in mandated costs and other fixed expenses still must be covered.

C. Financial Forecast Guidelines

To determine the Town's operating capacity for each forthcoming fiscal year, the Town Administrator will annually create and provide the Selectmen and Finance Committee with a detailed budget forecast. The Town Administrator will also annually prepare a **five-year** financial projection of revenues and expenditures for all operating funds. These forecasts shall be used as planning tools in developing the following year's operating budget as well as the five-year capital improvement plan.

To ensure the Town's revenues are balanced and capable of supporting desired levels of services, forecasts for property taxes, local receipts, and state aid will be conservative based on historical trend analyses and will use generally accepted forecasting techniques and appropriate data. To avoid potential revenue deficits, estimates for local receipts (e.g., inspection fees, investment income, license fees) should generally not exceed the prior year's actual collections without firm evidence that higher revenues are achievable.

Additionally, the Town's forecast model should assume that:

- The current level of services will be maintained
- Property taxes (absent overrides) will grow at the limits of Proposition 2½
- New growth will be projected conservatively, taking into account the Town's three-year average by property class
- Local receipts and state aid will reflect economic cycles
- Historical trends in the growth of specific operating expenses and employee benefits will prevail
- Potential cost-of-living adjustment estimates for the impact of future contract settlements and

compensation plan increases are included

- Debt service on existing debt will be paid and Capital Planning and Debt policies will be followed
- Annual pension contributions and appropriations to amortize its other postemployment benefit liabilities will continue
- Reserves will be built and maintained in compliance with its Financial Reserves policy

EFFECTIVE DATE

This policy was adopted on []

INDIRECT COST ALLOCATION

PURPOSE

To ensure all indirect costs associated with the Town's water and sewer enterprise funds are allocated in a manner that is reasonable and equitable, reflects true shared costs, and is easily replicable from year to year, this policy provides guidelines for the calculation, allocation, and review of those costs.

As enterprise funds, the accounting for these funds is recorded and managed separately from the general fund. These operations have separate financial statements so that their revenues and expenses are not commingled with those of all other governmental activities. Consolidating each program's direct and indirect costs, debt service, and capital expenditures into its own distinct, segregated fund allows the Town to demonstrate to the public the true, total cost of providing the particular utility.

APPLICABILITY

This policy applies to the **Town Administrator, Town Accountant, and Water and Sewer Departments.**

POLICY

As part of the annual budget process, the **Town Administrator** and **Town Accountant** will calculate the indirect costs to the general fund of the Town's water and sewer departments and will review the calculation with the **Water and Sewer Department** until there is agreement on the resultant totals and signify the agreement in writing. The calculation will take into account expenses for water and sewer personnel budgeted in the general fund, as well as the enterprise related expenses of the Town departments that provide administrative services to the enterprise departments, which include the Town Administrator, Town Accountant, Treasurer, Collector, Legal Services, and Information Technology departments.

The **Town Accountant** will calculate indirect costs using the most recent fiscal year's appropriations and based on one or more of the following methodologies: actual, transactional, estimated support, and proportional. The following expenses shall be included in the calculations:

- Benefits for active and retired employees, including insurances, Medicare tax, unemployment, and workers' compensation
- Pension Costs
- Vehicle insurance
- Property insurance
- Administrative costs
- Other costs that may be considered and agreed to, such as: materials, supplies, software, infrastructure, and fuel

The **Town Accountant** will maintain written instructions detailing the calculation methodology, and track and record operating transfers between the relevant funds. A detailed explanation of the four-different indirect cost allocation methods is included in Appendix III of this policy manual.

INVESTMENTS

PURPOSE

To ensure the Town's public funds achieve the highest possible, reasonably available rates of return while following prudent standards associated with safety, liquidity, and yield, this policy establishes investment guidelines and responsibilities. It is further designed to comply with the Governmental Accounting Standards Board's recommendations that each community disclose its key policies affecting cash deposits and other long-term investments to ensure they are managed prudently and not subject to extraordinary risk.

APPLICABILITY

This policy pertains to short-term operating funds, including general funds, special revenue funds, bond proceeds, capital project funds, and to all accounts designated as long-term (e.g., trusts, stabilization fund, other postemployment benefits trust fund (OPEB), and others the Town may set aside for long-term use, including scholarship and perpetual care funds). It does not pertain to the Town's retirement fund, which is invested and managed by the Webster Retirement Board.

This policy applies to the Treasurer, his or her designee(s), and any advisors or other professionals in their responsibilities for investing and managing Town funds.

POLICY

The Treasurer will invest funds in a manner that meets the Town's daily operating cash flow requirements and conforms to state statutes governing public funds while also adhering to generally accepted diversification, collateralization, and prudent investment principles regarding safety, liquidity, and yield. The Treasurer will separately maintain all long-term accounts in order to proportion interest and any realized and unrealized gains or losses. All trust funds are under the Treasurer's control unless otherwise directed by the donor.

Through this policy, the Town accepts the allowable investment instruments, diversification principles, and investment restrictions regarding short- and long-term funds allowed by state statutes, updated by [Chapter 218 of the Acts of 2016](#) (Municipal Modernization Act), and as published by the Massachusetts Collectors and Treasurers Association (MCTA). The latest MCTA guidance is included in Appendix IV of this policy manual. (Note: Section 94 of Chapter 218 of the Acts of 2016 amends current law to permit investment in certificates of deposit (CDs) for up to 3 years. The current MCTA guidance does not reflect the updated law.)

A. Investment Objectives

To secure the highest return consistent with safety of principal while meeting the Town's daily cash needs, the Treasurer will adhere to the following guidelines on safety, liquidity and yield:

- To preserve capital, the Treasurer will mitigate credit and interest rate risks by prudently selecting and diversifying investment instruments and depository choices.
- The Treasurer will ensure the overall investment portfolio remains sufficiently liquid to meet all reasonably anticipated operating requirements. Since all possible cash demands cannot be anticipated, the Treasurer will carry out investment activities in a manner that provides for meeting unusual cash demands without liquidating investments and thereby potentially forfeiting accrued interest earnings and losing principal.

- The Treasurer will manage all investments to achieve a fair market average rate of return, considering safety and liquidity constraints as well as all legal requirements.

B. Risk Tolerance

The Treasurer will employ the following strategies to mitigate the range of investment risks:

- The Treasurer will manage credit risk by following the guidelines on investment instruments published by the MCTA and incorporated here by reference. This mitigates the risk that an insurer or other counterparty to an investment will not fulfill its obligations.
- To mitigate custodial risks when investing with any financial institution, the Treasurer will review its financial statements and advisor's background to limit the Town's exposure only to institutions with proven financial strength, capital adequacy, and overall affirmative reputations in the municipal investment industry. The Treasurer will further ensure that all securities not held directly by the Town will be held in the Town's name and tax identification number by third-party custodians approved by the Treasurer and evidenced by safekeeping receipts showing individual CUSIP (Committee on Uniform Security Identification Procedures) numbers for each.

Custodial risk for deposits is the risk that, in the event of the failure of a depository financial institution, the Town would not be able to recover deposits, or to recover collateral securities in the possession of an outside party. The custodial risk for investments is the risk that, in the event of a failure of the counterparty to a transaction, a Town would not be able to recover the value of an investment or to recover collateral securities in the possession of an outside party.

- The Treasurer will minimize, concentration of credit risk, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. This mitigates the risk associated with the magnitude of a Town's investment in a single issuer.
- The Treasurer will carefully manage the duration of each investment account to mitigate interest rate risk, which is the risk that changes in interest rates will adversely affect an investment's fair market value.
- The Treasurer will mitigate foreign currency risk by limiting investments in any instruments with foreign currency exposures. This minimizes risk that changes in foreign exchange rates will adversely affect an investment deposit or its fair market value.

C. Ethics

The Treasurer and Assistant Treasurer will refrain from any personal activity that may conflict with the proper execution of the investment program or that could impair or appear to impair the ability to make impartial investment decisions. Said individuals will disclose to the Town Administrator any personal material financial interest in financial institutions that do business with the Town. They will also disclose any large personal financial investment positions or loans that could be related to the performance of the Town's investments.

D. Relationship with Financial Institutions

The Treasurer will consider soundness and stability when selecting financial institutions. To do so, the Treasurer will subscribe to and use one or more of the recognized bank rating services, such as Veribanc or Sheshunoff, and will work with only recognized, reputable brokers/dealers.

When using the Veribanc rating service, the Treasurer may invest in banks that show green ratings and will subsequently monitor the ratings quarterly. If a banking institution's rating turns yellow, the Treasurer will contact the appropriate banking institution and request a written explanation for the rating change and the expected timetable for changing back to green. If the rating is still yellow for a second quarter, the Treasurer should consider liquidating all funds that are not collateralized or do not carry some form of depositor's insurance. If a rating moves to red, all money will be immediately collateralized, or covered by some form of depositors' insurance, or be removed from the banking institution.

The Treasurer will require any brokerage houses and brokers/dealers wishing to do business with the Town to supply the following information:

- Audited financial statements
- Proof of National Association of Security Dealers certification
- Statement that the broker/dealer has read and will comply with this policy
- Proof of credit worthiness (minimum standards: at least five years in operation and a minimum capital of \$10 million)

E. Reporting Requirements

The Treasurer will assess investment activity and keep the Town Administrator apprised of any major changes by providing a report of investment activity annually or more often as needed.

The investment activity report should include the following information at minimum:

- List of all the individual accounts and securities held at the end of the period
- List of short-term investment portfolios by security type and maturity to ensure compliance with the diversification and maturity guidelines
- Summary of income earned on monthly and year-to-date bases
- Brief statement of general market and economic conditions and other factors that may affect the Town's cash position
- Statement on the degree of compliance with the tenets set forth in this policy

OTHER POSTEMPLOYMENT BENEFITS LIABILITY

PURPOSE

To ensure fiscal sustainability, this policy sets guidelines for a responsible plan to meet the Town's obligation to provide other postemployment benefits (OPEBs) for eligible current and future retirees. It is designed to achieve generational equity among those called upon to financially support OPEBs and thereby avoid transferring costs into the future.

APPLICABILITY

This policy encompasses OPEB-related budget decisions, accounting, financial reporting, and investment. It applies to the Board of Selectmen, Finance Committee, and Town Administrator in their budget decision-making responsibilities. The policy also applies to the OPEB-related duties of the Treasurer, and Town Accountant.

BACKGROUND

In addition to salaries, the Town of Webster compensates employees in a variety of other forms. Many earn benefits over their years of service that they will not receive until after retirement. A pension is one such earned benefit. Another is a set of retirement insurance plans for health, dental, and life. These are collectively referred to as other postemployment benefits or OPEBs.

OPEBs represent a significant liability for the Town that must be properly measured, reported, and planned for financially. As part of a long-range plan to fund this obligation, the Town established an OPEB Trust Fund, which allows for long-term asset investment at higher rates of return than those realized by general operating funds.

POLICY

The Town of Webster is committed to funding the long-term cost of the benefits promised its employees. To do so, the Town will accumulate resources for future benefit payments in a disciplined, methodical manner during the active service life of employees. The Town will also periodically assess strategies to mitigate its OPEB liability. This involves evaluating the structure of offered benefits and their cost drivers while at the same time avoiding benefit reductions that would place undue burdens on employees or risk making the Town an uncompetitive employer.

A. Trust and Trustees

The Town will maintain an irrevocable trust for the benefit of the Town's retirees and dependents. The Board of Selectmen will designate an independent board of trustees to manage and invest the OPEB Fund. The Treasurer will serve as custodian and be bonded in sufficient amounts to protect fund assets.

As custodian, the Treasurer is authorized to make contributions and withdrawals from the fund. The Treasurer will also monitor investment activity and report all transactions to the **Town Administrator and Town Accountant**. The trustees, as fiduciaries, will invest the fund's assets for the primary purpose of enhancing the value of the fund while minimizing the risk of large losses. On an annual basis, the Town will analyze its option to invest its OPEB trust with the [State Retiree Benefits Trust Fund](#) (SRBT) or other alternatives.

Note: Section 238 of [Chapter 218 of the Acts of 2016](#) (Municipal Modernization Act) specifically provides that OPEB funds established before the effective date of the Act, November 7, 2016, will continue as originally established, unless the community ***"reaccepts said section 20 of said chapter 32B after the effective date of this act."*** ***Therefore, to operate an OPEB fund under the amended section 20, Webster's town meeting would have to vote to reaccept MGL c. 32B, sec. 20 after November 7, 2016. If the Town reaccepts section 20 and does not invest in the SRBT, town meeting must also authorize investment under the prudent investor rule M.G.L. c. 203C for additional investment options.***

B. Accounting and Reporting

The Town Accountant will obtain actuarial analyses of the Town's OPEB liability every two years and will annually report in the Town's OPEB obligations in financial statements that comply with the current GASB guidelines. The Town Accountant will also reconcile the fund to the general ledger monthly and report fund activity and expenses annually.

The Town Administrator will ensure that the Town's independent audit firm reviews compliance with the accounting and reporting provisions of this policy as part of its scheduled audit and will report the findings to the Board of Selectmen.

C. Mitigation

On an ongoing basis, the Town will assess healthcare cost containment measures and evaluate strategies to mitigate its OPEB liability. The Town Administrator or designee will monitor proposed laws affecting OPEBs and Medicare and analyze their impacts. The Town Administrator or designee will also regularly audit the group insurance and retiree rolls and terminate any participants found to be ineligible based on work hours, active Medicare status, or other factors.

D. Funding

To address the OPEB liability, decision makers will analyze a variety of funding strategies and subsequently implement them as appropriate with the intention of fully funding the obligation. The Town will derive funding to invest in the OPEB trust from taxation, free cash, retained earnings, and any other legal form. To ensure that the Town's enterprise fund remains self-supporting, the Water/Sewer Commission will factor its proportional OPEB contributions into the setting of utility rates.

Achieving full funding of the liability requires the Town to commit to funding its annual required contribution (ARC) each year, which is calculated based on actuarial projections. Among strategies to consider for funding the ARC:

- Transfer unexpended funds from insurance line items to the OPEB trust
- Appropriate amounts equal to the Town's Medicare Part D reimbursements

- Determine and commit to appropriating an annual portion of free cash and retained earnings
- Appropriate a percentage of ongoing revenues that is increased incrementally each year
- Once the pension system is fully funded, on a subsequent annual basis, appropriate to the OPEB trust the amount equivalent to the former pension-funding payment or the ARC, whichever is less

By a two-thirds vote of town meeting, the Town may appropriate from the OPEB trust fund to cover any unexpected increase in the cost of retiree benefits if such increases would destabilize the annual budget.

E. Investment

Long-term OPEB liabilities require a long-term perspective in formulating and implementing investment policies. The trustees' objective for the OPEB trust fund is to achieve the highest level of investment performance that is consistent with prudent investment practices and Webster's risk tolerance.

The trustees will direct the custodian to invest OPEB funds in the SRBT fund or other investments and set a target rate of investment return at 7 percent, understanding that investment performance that exceeds or underperforms the target rate may materially impact liabilities and future funding.

F. Reporting Requirements

The Treasurer will periodically review at least quarterly the performance of the OPEB fund with the trustees and any investment manager(s) and keep **the Town Administrator apprised by providing an annual report.**

The OPEB fund performance report should include the following information at minimum:

- List of all the individual accounts and securities held at the end of the period
- Summary of income earned on monthly and year-to-date bases
- Disclosure of all fees associated with managing the fund

This policy was adopted on [_____]

ANTIFRAUD

PURPOSE

To protect the Town's assets and reputation from misappropriation and abuse, this policy provides guidelines to safeguard against fraudulent activities and any appearance thereof.

Policy objectives include:

- To create an environment in which employees and citizens can report any suspicion of fraud
- To communicate the Town's intent to prevent, report, investigate, and disclose to proper authorities suspected fraud, abuse, and similar irregularities
- To provide management with guidelines and responsibilities regarding appropriate actions in conducting investigations of alleged fraud and similar improprieties

APPLICABILITY

This policy pertains to any suspected fraud, abuse, or similar irregularity against the Town. It applies to the Board of Selectmen and all other elected town officials; their appointees; all Town of Webster employees; and to any other persons acting on behalf of the Town, such as vendors, contractors, consultants, volunteers, temporary, and casual employees, and grant sub recipients.

POLICY

The Town is committed to protecting its revenue, property, information, and other assets from any attempt, either by members of the public, contractors, consultants, vendors, agents, or its own employees, to gain by deceit, financial or other benefits at the expense of taxpayers. Town officials, employees and other persons acting on behalf of the Town must at all times, comply with all applicable policies, laws, and regulations. The Town will not condone any violation of law or ethical business practices and will not permit any activity that fails to withstand the closest possible public scrutiny. The Town intends to fully, objectively, and impartially investigate any suspected acts of fraud or other similar irregularities regardless of the position, title, length of service, or relationship with the government of any party who may be the subject of such investigation.

A. Definitions

Any person acting on behalf of the Town - will mean any person responsible for or to Webster's government placed in that position by some official relationship with the Town.

Abuse can occur in financial or nonfinancial settings and refers to, but is not limited to:

- Improper use or misuse of authority
- Improper use or misuse of Town property, equipment, materials, records, or other resources
- Waste of public funds
- Any similar or related activity

Fraud or other irregularity refers but is not limited to:

- Any dishonest or fraudulent act
- Forgery or alteration of any document or account
- Forgery or alteration of a check, bank draft, promissory note, or any other financial document
- Embezzlement
- Theft
- Falsifying time sheets or payroll records
- Misappropriation of funds, securities, supplies, or other assets
- Impropriety in the handling or reporting of money or financial transactions

- Profiteering, as a result, of insider knowledge of Town activities
- Disclosing confidential or proprietary information to outside parties
- Accepting or seeking anything of material value from consultants, contractors, vendors, or persons providing services or materials to the Town
- Destruction, removal or inappropriate use of records, furniture, fixtures, and equipment
- Any claim for reimbursement of expenses not made for the exclusive benefit of the Town, including falsifying travel or entertainment expenses or utilizing town funds to pay for personal expenses or personal benefit
- Any computer-related activity involving the alteration, destruction, forgery, or manipulation of data for fraudulent purposes
- Any omissions and misrepresentations made in bond offering documents, presentations to rating agencies, and annual financial reports
- Fictitious reporting of receipt of funds
Fraudulent Financial Reporting
- Improper revenue recognition
- Improper expense/expenditure recognition
- Overstatement of assets
- Understatement of liabilities

B. Antifraud Responsibilities

Every employee has the responsibility to assist the Town in complying with policies and laws and in reporting violations. The Town encourages the support and cooperation of all employees in meeting the Town's commitment and responsibility to such compliance.

Town managers and officials are responsible for instituting and maintaining a system of internal controls to reasonably ensure the prevention and detection of fraud, misappropriations, and similar irregularities. Management should be familiar with the types of improprieties that could occur within their areas of responsibility and be alert for any indications of such conduct.

The Town Administrator has primary responsibility for investigating all activity defined in this policy and will, to the extent practical, notify the Board of Selectmen of reported allegations of fraudulent or irregular conduct upon commencing the investigation. In all circumstances where there are reasonable grounds to indicate a fraud may have occurred, the Town Administrator, subject to the advice of Town Counsel, will contact the District Attorney's office and/or the Webster Police Department. Upon concluding the investigation, the Town Administrator will report results to the Selectmen and others as determined necessary.

C. Disclosure

If the Town's investigation concludes that there was a violation of any federal criminal law involving fraud, bribery or gratuity potentially affecting a federal award, the Town Administrator will disclose such in writing to the federal awarding agency in compliance with the Office of Management and Budget's Omni Circular. Similarly, if there are findings of bond offering information falsification, The Town Administrator and/or the Town Accountant will disclose in writing to the bondholders.

M.G.L. c. 149 §185

U.S. Office of Management and Budget's Omni Circular issued December 2013

EFFECTIVE DATE

This policy was adopted on [_____]

ANTIFRAUD PROCEDURES

The Town Administrator creates the procedures to cover, all, of the following at minimum:

1. Procedure and methods for reporting suspicions of fraud, abuse and other irregularities

- Any individual/employee who has knowledge of an occurrence of irregular conduct, or has reason to suspect that a fraud has occurred, shall immediately notify his/her immediate supervisor or their department head. However, in certain circumstances, it may be appropriate for employees to report suspected instances of fraud or irregularity directly to the Town Administrator (if the alleged fraud has been committed by the employee's supervisor or department head or in the case of a non-employee).
- Town employees are prohibited from initiating investigations on their own. However, anyone may report suspected violations or concerns in writing to the Town Administrator and shall indicate whether he/she is an employee of the Town. The report shall be sufficiently detailed and inclusive to ensure a clear understanding of the issues raised. The report shall be submitted to the Town Administrator in a sealed envelope marked "Confidential and Private". It is the policy of the Town that anyone who reports a violation may submit such report confidentially and offsite.

2. Assignment of responsibilities in response to reported suspicions

- The supervisor or department head receiving the report will report it as soon as practical to the Town Administrator. The written or oral report shall be sufficiently detailed and inclusive to ensure a clear understanding of the issues raised. In the event, that the Town Administrator is the subject of, or otherwise identified as involved in the acts underlying the report, the person making the report may notify and forward such report to the Chief of Police who will then lead the investigation and shall immediately report such allegations to the Chairman of the Board of Selectmen.
- The Town Administrator upon notification of a discovery of suspected fraud, abuse or impropriety will promptly investigate the suspected issue.
- An objective impartial investigation will be conducted regardless of the position, title, length of service, or relationship with the Town of any party involved in such an investigation.
- In conducting investigations, the Town Administrator will consult with and receive guidance from the Town Counsel, the Chief of Police and any other source they deem appropriate.
- In all circumstances, where there are reasonable grounds to indicate that a fraud, abuse or impropriety may have occurred, the Town Administrator will inform Town Counsel. Subject to the advice of Town Counsel, the Town Administrator will contact the office of the district Attorney and /or the Webster Police Department.

3. Employee protections from retaliation

- **Whistleblower Protection** – In addition to whistleblower protections provided by federal and state laws, no employee or person acting on behalf of the Town as it relates to this policy shall:
 - a. Be dismissed or threatened with dismissal
 - b. Be disciplined, suspended, or threatened with discipline or suspension;
 - c. Be denied a promotion
 - d. Receive and adverse job performance evaluation
 - e. Be penalized or any other retribution imposed, or
 - f. Be intimidated or coerced
- There shall be no retaliation by any Town employee against an employee who makes a report pursuant to this policy even if, after investigation, the Town Administrator determines that there has

not been a violation of any applicable Town Policy, state or federal laws and regulations or internal accounting controls.

This section shall not apply to:

- a. Any employee who discloses information that the employee knows to be false, or who discloses information with disregard for the truth or falsity of the information.
 - b. Any employee who discloses information from public records that are closed to public inspection pursuant to the Massachusetts Public Records Law.
 - c. Any employee who discloses information that is confidential under any other provision of law.
- It shall be the obligation of an employee who discloses information under this section to make a good faith effort to provide their department head, appointing authority or the Town Administrator, the information to be disclosed prior to its public disclosure.
4. Security of investigation documents
 - Once a suspected fraud, abuse or impropriety is reported, the Town Administrator, in consultation with Town Counsel, shall take immediate action to prevent the theft, alteration, or destruction of relevant records.
 - a. Such actions include, but are not limited to:
 - removing the records and placing them in a secure location
 - limiting access to the locations where the records exist
 - preventing the individual suspected of committing the fraud from having access to the records.
 - b. The records must be adequately secured until the audit or investigation can begin.
 5. Treatment of anonymous allegations and false allegations (intentional and unintentional)
 - **Anonymous Allegations** - The Town encourages individuals to sign their names to allegations. Concerns expressed anonymously are difficult to investigate; nevertheless, anonymous allegations will be followed up on at the discretion of management. This discretion will be applied after consideration of the following:
 - a. Seriousness of the issue raised
 - b. Credibility of the concern
 - c. Likelihood of confirming the allegation
 - **False Allegations** - Employees or other parties must understand the implications (resources and costs) of undertaking investigations, and shall therefore guard against making allegations which are false and made with malicious intent. Evidence of malicious intent will result in disciplinary action, up to and including termination.
 6. Personnel disciplinary actions
 - If a suspected fraud, irregularity or impropriety is substantiated by the investigation, disciplinary action shall be taken by the Appointing Authority in accordance with the Personnel Bylaws and applicable state and federal laws after consultation with Town Counsel.
 7. Responsibilities around media contact
 - No elected or appointed official or town employee will discuss the details of any ongoing fraud investigation (including all executive sessions) with the media that may compromise the integrity of the investigation.
 - Any Town employee contacted by the media with respect to an audit or investigation shall refer the media to the Town Administrator.
 8. Training, education and awareness

- Management will ensure that all employees and other parties are made aware of and receive appropriate training and education, with regard, to fraud and abuse relative to their areas of employment and the related policies and procedures of the Town.
9. Disclosure requirements and protocols
- Confidentiality – All participants and persons questioned in a fraud investigation (including all executive sessions) shall keep the details and results of the investigation confidential so as not to violate an individual’s expectation of privacy.
 - All public announcements concerning an investigation shall respect the right of all individuals under federal and state law as recommended by Town Counsel.
 - All information relating to investigations will be available to the external auditors of the town
 - Upon completion of the investigation all records will be returned to the appropriate department
 - The results of all investigations will be reported to the Board of Selectmen, Town Counsel and other as determined necessary.

OVERLAY

PURPOSE

To ensure the proper treatment of the overlay account, this policy sets guidelines for determining the annual overlay amount in the Town's budget and for deciding whether any overlay balance can be certified as surplus. The allowance for abatements and exemptions, commonly referred to as the overlay, is an account to offset anticipated abatements and exemptions of committed real and personal property taxes. The account may also be charged in the event property taxes are deemed to be uncollectable.

Effective November 7, 2016, the Municipal Modernization Act ([Chapter 218 of the Acts of 2016](#)) (Municipal Modernization Act) provides for a single overlay account. Previously, a community had to maintain separate overlay reserves for each fiscal year and could not use the surplus from one year to cover another year's deficit without a multistep process involving the assessors, accounting officer, and local legislative body. However, the Act allows all existing overlay balances to be transferred to a single account. Although this policy treats overlay as a single account, to continue historical information and facilitate reconciliations, the Town Accountant may elect to maintain subsidiary ledgers by levy year for overlay balances.

APPLICABILITY

This policy applies to the job duties of the Board of Assessors, Assessor, Town Accountant, Town Administrator, as well as to the Board of Selectmen and Finance Committee's role as budget decision makers.

POLICY

A. Annual Overlay

Each year, the Board of Assessors will vote in an open meeting to authorize a contribution to the overlay account as part of the budget process and to raise it without appropriation on the Town's Tax Recapitulation Sheet. The Director of Assessing will determine the amount to be added to the overlay account based on the following:

- Current balance in the overlay account
- Three-year average of granted abatements and exemptions
- Potential abatement liability in cases pending before, or on appeal from, the Appellate Tax Board (ATB)
- Timing of the next certification review by the Division of Local Services

The Board of Assessors will notify the Town Administrator and the Town Accountant of the amount of overlay voted.

B. Excess Overlay

Annually, the Assessor and Town Accountant will conduct an analysis to see if there is any excess in the overlay account balance by factoring the following:

- Current balance in the overlay account after reconciling with the Town Accountant's records
- Balance of the property tax receivables, which represents the total real and personal property taxes still outstanding for all levy years
- Estimated amount of potential abatements, including any cases subject to ATB hearings or

other litigation

Upon determining any excess in the overlay account, the Assessor notify the Town Administrator.

C. Overlay Surplus

If there is an excess balance in the overlay account, the Chief Assessor in an open meeting to certify an amount to transfer to overlay surplus and will notify the Board of Selectmen, Town Administrator, and Town Accountant in writing of its vote. If the Board of Selectmen makes a written request for a determination of overlay surplus, the Board of Assessors will vote on the matter within the next 10 days and notify the Board of Selectmen of the result in writing.

After being certified, Town Meeting may appropriate overlay surplus for any lawful purpose until the end of the fiscal year. However, the appropriation should be as prescribed in the Town's Forecasting policy (re: treatment of one-time revenues) and its Financial Reserves policy (re: overlay surplus). Overlay surplus not appropriated by year-end closes to the general fund's undesignated fund balance.

Town of Webster Forecasting Policy
Town of Webster Financial Reserves Policy

EFFECTIVE DATE

This policy was adopted on [_____]

PROCUREMENT CONFLICT OF INTEREST

PURPOSE

To ensure integrity in the procurement and contract processes, to educate Town employees, consultants, uncompensated outside parties, and any other person involved in decisions to award contracts about potential conflicts of interests, and to establish a process for the screening of conflicts of interests.

APPLICABILITY

The policy pertains to all the Town's procurement and contract processes governed under the provisions of the state's Uniform Procurement Act associated with, but not limited to: specification development, preparation and issuance of solicitations, evaluation of solicitations and submissions, and other evaluations that lead to Town contract awards. The policy applies to the job responsibilities of the Town Administrator serving as the Town's procurement officer and to related functions of the Town Counsel and Town Accountant. It further applies to all Town employees, officials, and others working on the Town's behalf who are involved with any procurement and contract process and to the prospective contractors.

POLICY

The Town is committed to ethical business practices, professional integrity, and compliance with all procurement laws and regulations. Webster will provide fair opportunities to participants in competitive processes for the award of Town contracts. Process integrity will be reinforced by the practices outlined here to ensure confidentiality during the bid evaluation process and to assess and address conflicts of interest in all competitive solicitations. The Town will investigate all allegations of conflict of interest or misconduct brought to the attention of Town staff.

To comply with the state's [Uniform Procurement Act](#), any purchase for supplies or services ([with certain exceptions](#)) costing more than \$10,000 requires solicitation of three written quotes for contracts and those over \$50,000 require competitive sealed bids or proposals for contracts.

A. Confidentiality during the Bid Evaluation Process

Town staff, consultants, and outside evaluators who are participants in a bid evaluation process are required maintain confidentiality, which bind them not to share any information about responses received and the evaluation process until the Town issues a Notice of Intended Award.

Departments must:

1. Identify all participants of an evaluation process who receive proposals or other documents used in the evaluation process, including non-evaluating observers
2. Ensure that these participants sign confidentiality agreements
3. Submit the confidentiality agreements to the Town Administrator

The Town Administrator must:

1. Verify that signed confidentiality agreements for all participants in the evaluation process, including non-evaluating observers, are submitted
2. Maintain signed confidentiality agreements on file

B. Conflict of Interest in Procurement

To ensure decisions are made independently and impartially, Town employees and officials are expected to avoid any conflicts of interest and, also avoid the appearance of conflicts of interest. A conflict of interest, or the appearance of one, must be disclosed whenever a vendor, employee, or officer has, or can reasonably anticipate having, an ownership interest, a significant executive position, or other remunerative relationship with a prospective supplier of goods or services to the Town or knows that a family member or other person with whom they have a personal or financial relationship has such an interest.

According to the federal Office of Management and Budget's Omni Circular, a conflict of interest arises when: *"the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract."*

And it states that: *"The officers, employees, and agents of the non-federal entity must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts."*

The Omni Circular further requires that for any federal grant involving a parent, affiliate, or subsidiary organization that is not a state or local government, the Town must also maintain written standards of conduct covering organizational conflicts of interest. An organizational conflict of interest means that due to a relationship with a parent company, affiliate, or subsidiary organization, the Town is unable or appears to be unable to be impartial in conducting a procurement action involving the related organization.

Any person with a conflict as described above will not participate in the preparing of specifications, qualifying vendors, selecting successful bidders on products or services in which they have an interest, or approving payment to those interests. The only exception to this arises if the person makes full disclosure of a potential conflict and receives an advance, written determination from the State Ethics Commission that the interest is not so substantial as to be deemed likely to affect the integrity of the services the Town may expect from that individual.

Department heads and other officials are required to ascertain and disclose to the Town Administrator any potential conflict of interest affecting procurement transactions before a contract is signed, a commitment made, or an order placed. Having satisfied this requirement, the Town Administrator will notify the Town Accountant, who will verify the availability of funds before any order is placed with a vendor of more than \$10,000.

The following measures shall be taken to ensure the Town avoids any conflicts of interest in procuring Town contracts:

1. Employees, officials, and others who regularly participate in contract activities on behalf of the Town must disclose relevant financial interests as required by state and federal laws and to annually review those statements in conjunction with this policy and other ethical standards.
2. Other persons involved in procurements must review this policy and other ethical standards and provide information in order to determine if there is a conflict of interest. Such persons

will include, but are not limited to, authors of specifications; paid and unpaid evaluators; and paid and unpaid consultants who assist in the procurement process.

3. If a possible conflict of interest is identified, it must be documented and reviewed with Town Counsel.

Departments must:

1. Identify employees, consultants, outside uncompensated parties, and any other persons who will be involved in a procurement or contract activity, such as specification development, preparation and issuance of solicitations, evaluation of solicitations or submissions, or other evaluations, that will lead to an award of contract
2. Provide conflict of interest forms to the identified participants
3. Submit the completed forms to the Town Administrator prior to commencing any procurement or contract activity

The Town Administrator must:

1. Review the submitted forms for potential conflicts of interest
2. Discuss any potential conflicts of interest with Town Counsel and document the resulting determinations
3. If a conflict or the appearance of one exists, take appropriate actions, including but not limited to, removal of the employee, consultant, or outside uncompensated party from the procurement or contract activity or cancelation of the solicitation.

C. Audit

The Town Accountant will conduct random audits of compliance with this policy. All practices associated with the Town's procurement also are subject to audit by the Town's independent auditor.

Town of Webster Bylaws Part I, Chapter 20, Sections 1 and 2

EFFECTIVE DATE

This policy was adopted on []

RECONCILIATION

PURPOSE

To ensure transactions are in balance, to mitigate fraud, and to safeguard general ledger accuracy, financial officers must conduct regular reconciliations of their accounting records, and these must be reconciled to the general ledger. Although each financial officer is responsible for maintaining independent records of his or her office's transactions, they are also collectively accountable for the overall accuracy of Webster's financial records. Failure to reconcile cash, receivables, and withholdings hampers the Town's ability to produce reliable reports, close its books, make timely submissions to the Division of Local Services, and complete audits. In addition, unresolved variances reduce the amount of certified free cash and may result in significant deficiency findings by the independent auditor.

APPLICABILITY

This policy applies to the Town Accountant, Treasurer, Collector, or their designees and to any other department that has accounts receivable responsibilities (e.g., Police, Sewer, etc.).

POLICY

The Treasurer, Collector and all department heads with accounts receivable duties will internally reconcile their respective accounting records and subsequently reconcile them with the Town Accountant according to the guidelines and periodic time frames outlined in this policy.

A. Cashbook Reconciliation

To ensure an accurate accounting of all revenue activity, the Treasurer and Collector will maintain a cashbook that reflects up-to-date and accurate information for all cash and assets. To do so, the Treasurer and Collector will make certain that all cash receipts, disbursements, transfers, and interest are recorded in the cashbook within two business days of each transaction and will reconcile cashbook accounts to their corresponding bank accounts within seven days of the availability of month end bank statements. These will include zero-balance vendor and payroll bank accounts, whose balances must equal the outstanding checks at the end of any month.

Reconciling items, including deposits in transit, bounced and voided checks, and discrepancies between the Collector's cashbook and financial institutions, will be identified and corrected when appropriate. The Collector will then forward a summary of the reconciled cashbook balances and, when needed, an additional Schedule of Receipts reflecting any adjustments to the Town Accountant.

B. Accounts Receivable Reconciliation

Accounts receivable are outstanding monies owed to the Town, whether from committed bills (i.e., taxes, excise, and utilities) or from uncommitted department invoices (e.g., police details, ambulance charges). To ensure these assets are accounted for and balanced, the Collector and the department head with accounts receivable duties (the "record-keeper") will make certain that all cash receipts are recorded timely, maintain a control record for each receivable type and levy year, and verify the detail balance agrees with the receivable control.

The receivable control is a record of original entry in which the record-keeper reduces a commitment according to collections, abatements, and exemptions and increases it by refunds issued. To maintain accuracy, the record-keeper must review the detailed list of receivables, identify credit

balances as prepaid amounts or investigate them for possible correction, and reconcile the control balance to the detail.

Whenever these records do not agree, the record-keeper must determine the discrepancy by:

- Verifying the various transactions (commitments, abatements, refunds, chargebacks) against their supporting documents
- Comparing the total amount of posted payments to the turnovers accepted by the Treasurer and Collector
- Determining whether any revenues were incorrectly recorded as payments to the commitment, such as interest and fees

The record-keeper will forward a copy of the internally reconciled accounts receivable balances to the Town Accountant.

C. General Ledger Reconciliation

To achieve the core objective of maintaining the general ledger's integrity, the Town Accountant must regularly reconcile it with the separately maintained accounting records outlined in Sections A – B above. In addition, it is the Accountant's responsibility to review all accounts analytically from time to time for reasonableness and to identify unusual activity.

The general ledger's cash accounts should reflect only those transactions reported to the Town Accountant by the Treasurer and Collector, so that in theory, the general ledger should be in balance with the cashbook. However, errors may occur due to omitting transfers or transactions or applying them in the wrong amounts or to the wrong accounts. Whenever the Town Accountant identifies a discrepancy between the general ledger and the cashbook, the following steps must be taken in conjunction with the Treasurer and Collector to determine the cause(s).

- If the total amount of revenue reported in the cashbook does not agree with the amount recorded in the ledger for that month, the Treasurer and Collector must verify that the monthly Treasurer's Schedule of Receipts agrees by detailed amount and classification with the cashbook and correct any errors.
- Compare the total amount of warrants paid during the month as recorded in the cashbook with the total recorded in the ledger for the same period. The last warrant paid must be the last one recorded; otherwise, a timing problem will create a discrepancy.
- If the records still do not agree, the Treasurer, Collector and Town Accountant must trace each entry to the ledger until the variance is determined.

The Town Accountant will review the payroll withholdings against the general ledger and make corrections to the ledger as needed.

After receivable control sheets have been internally reconciled, committed and uncommitted accounts receivable records must also be reconciled to the Town Accountant's general ledger. Any discrepancy must be investigated to determine the source of the error:

- Review the commitments, charges, payments, abatements, refunds, reclassifications, and adjustments in the general ledger, as appropriate for the particular control
- Verify whether receipts are recorded to the correct type and levy year
- Verify the dates that activities were recorded

The Town Accountant's receivable accounts in the general ledger should reflect the transactions

provided by each particular record-keeper. Therefore, the above steps must resolve any discrepancies between the receivable control and the ledger. If they do not, the record-keeper and Town Accountant must trace each ledger entry until the variance is determined.

D. Time frames and Documentation

Finance department officers will complete reconciliations of their internal accounting records early each month so that subsequent reconciliations to the general ledger take place no later than the end of the month following the one being reconciled.

The Town Accountant will collectively submit the reconciliation worksheets to the Town Administrator by each month's end. The completed reconciliations will be maintained by the Town Accountant as part of the Town's permanent financial records.

All fiscal year end reconciliations will be completed in order for the Town Accountant to submit all required forms to DLS for free cash certification no later than September 30th.

E. Audit

All reconciliation documents are subject to audit by the independent auditor.

EFFECTIVE DATE

This policy was adopted on [_____]

REVENUE TURNOVER

PURPOSE

To safeguard Town assets and maximize cash flow, the Town establishes this policy that provides guidelines for departments that turn over receipts to the Treasurer. Included are details of internal controls designed to provide reasonable assurance that the Town's revenues are properly and timely secured, recorded, and deposited in Town bank accounts.

APPLICABILITY

This policy pertains to all cash, check, credit card, and other forms of payment received by all Town departments for taxes, excise, fees, federal and state government receipts, and charges. It applies to all individuals within each department assigned responsibility for handling payments, as well as the Collector and Assistant Collector. It also applies to the related job duties of the Treasurer.

POLICY

The head of each department that receives payments is responsible for instituting and employing internal controls designed to ensure that all receipts are recorded accurately, kept secure from loss or theft, and turned over timely to the Treasurer. No town official will maintain a bank account other than the Treasurer. Each department must turn over at least weekly. All current-month turnovers must be completed at month-end no later than 11:00 am on last business day of the month.

PROCEDURES

A. Receiving Payments

Departmental staff must issue a receipt for every collection received, even when the payer refuses it. Employees in the Collector's office receiving taxes and other collections from the public need only issue receipts for cash payments, however it is recommended to issue receipts for all collections. Without exception, all departmental staff must identify cash payments as such in their receipt books. Every collecting department will secure all payments in a locked cashbox or safe until turned over to the Treasurer.

Each department head is responsible for overseeing the processing, recording, record retention, and turning over of collected receipts to the Treasurer. To the extent practicable, separate individuals should be tasked with receiving payments and turning receipts over to the Treasurer.

B. Turning Over Revenues

Departmental staff will create a turnover package by filling out a standard Schedule of Departmental Payments (i.e., the turnover form), making three copies of the turnover form, and obtaining signatures of the department head on each of them. All receipts should correlate to the numbered receipt book and to the turnover form.

On a weekly basis, the Collector will complete a turnover of the collections for all taxes, utilities, and other committed receivables processed that week. This will consist of a turnover form showing all processed collections summarized by receipt type, which must reconcile to the bank deposits made the same day.

When the Treasurer's office has accepted the turnover, the department employee will receive two copies of the turnover form signed and dated by a Treasurer staff member. The department employee will retain one turnover copy on file and is responsible for delivering the other to the Town

Accountant. The Town Accountant will refuse to accept any turnover form that does not have a Treasurer staff member signature.

All departments that receive payments should review their monthly revenue reports against their turnover copies to verify that all receipts turned over to the Treasurer are accurately recorded in the appropriate general ledger accounts. Any discrepancy must be reported to the Town Accountant immediately.

C. Receiving Turnovers

When presented with a turnover, Treasurer staff will count the receipts in the presence of the remitting department. Any inaccuracies on the turnover form shall be corrected and initialed by both parties. The Treasurer staff member will then sign two turnover copies and return them to the departmental employee. Upon receipt, the Treasurer will secure the receipts, which shall be recorded in the cashbook and deposited in the bank within 24 hours.

To the extent practicable, separate individuals should be tasked with:

- 1) receiving the turnovers
- 2) recording the revenues in the cashbook, and
- 3) depositing the money in the bank.

The Treasurer will provide the Town Accountant a weekly report of all turnovers processed (i.e., the Schedule of Receipts report) for review, formal indication of agreement or changes, and recording to the general ledger.

D. Reconciliation

In accordance with the Town's Reconciliation policy, the Treasurer will reconcile the cashbook with bank statements and provide a summary of cashbook balances to the Town Accountant monthly.

E. Audit

All cash management activity is subject to review by the Town Accountant and the independent auditor.

Town of Webster Reconciliations Policy

Town of Webster Bylaws Part , Chapter , Article , Section

EFFECTIVE DATE

This policy was adopted on [_____]

TAX ENFORCEMENT

PURPOSE

To provide guidance for equitably enforcing tax obligations and set expectations for both the Town and taxpayers, this policy clearly defines when and how the Town will transition unpaid property taxes from tax title through to foreclosure. It is in the best interest of the Town of Webster and its residents that property taxes be paid when due. The Town budget is set in anticipation of the collection of taxes, and taxes not paid by some property owners shift the cost burden onto others. The Town recognizes that individuals may go through periods of financial difficulty, but any taxpayer who becomes delinquent will be encouraged to find alternative resources to pay in full as soon as possible.

APPLICABILITY

This policy applies to the job duties of the Treasurer and Collector, including those duties related to managing the Town's contracted services with a private deputy collector, tax title attorney, auctioneers, or other related professionals. Tax enforcement applies to all owners of real or personal property in the Town of Webster whose taxes are not exempt.

POLICY

The Town of Webster intends to timely pursue all legal methods to collect taxes from delinquent property owners with the goal of achieving a target 98 percent property tax collection rate by fiscal year-end. The Town will also periodically pursue foreclosure actions with the primary objective of receiving all monies due. Any costs for collection accrue against the taxpayer and may add to the property lien. Delinquent taxes represent a lien on property and remain in effect until all taxes, interest, and fees have been paid in full.

A. Demands

Final taxes are due to be paid as of May 1st each year (the due date for the fourth quarter tax bill). Fifteen days later, the Collector will issue demand notices to all assessed property owners who have failed to pay in full and who have not been granted full exemptions. Taxpayers are responsible for notifying the Town in writing of any mailing address changes.

B. Tax Taking

The Treasurer and Collector will begin the tax taking process within 60 days of the demand notice. State law allows the process to begin as soon as 15 days after the demand, but, in every case, the Treasurer and Collector must complete the takings within 3½ years from the end of the fiscal year for which the taxes were assessed to secure, or perfect, the tax liens.

The Treasurer and Collector will send at least one enforcement letter to delinquent property owners as a courtesy to potentially avoid a tax taking advertisement. If this does not result in full remittance by September 1st, the Treasurer and Collector will publish a Notice of Tax Taking in a local newspaper and post the notice in two or more convenient, public places. The Town customarily publishes in the local newspaper and posts on the Town Collector webpage, at the Library, and Town Clerk's office. From this point onward only cash, certified check, or cashier's check are acceptable forms of payment.

Within 60 days of the tax taking announcements, the Treasurer and Collector will prepare an

Instrument of Taking for each delinquent property and record at the Registry of Deeds, which perfects the tax lien. After receiving the recorded Instruments back from the Registry, the Treasurer and Collector will notify affected property owners of the liens by sending each of them a letter and a photocopy of the Instrument. The Treasurer and Collector will make two copies of the List of Recorded Takings and provide one each to the Board of Selectmen and Town Accountant.

C. Subsequent Taxes

After the demand bill and before June 15th each year, the Treasurer and Collector will certify all unpaid taxes and assessments for parcels of real estate taken into tax title for nonpayment of taxes in prior years and not yet redeemed and put them in a Subsequent Tax Takings list. The Treasurer and Collector will provide copies of the list to the Board of Selectmen and Town Accountant and retain one on file.

D. Interest, Fees, and License Revocation

All delinquent taxpayers are subject to charges, which are added to their accounts by the Collector. These charges include interest accrued to the date of taking, advertising fees, certified mailing costs, legal fees, and Instrument of Taking recording fees.

The Treasurer will provide a listing of all individuals who are delinquent in paying taxes or other charges to the Town departments, boards, and committees that issue licenses and permits in accordance with the Town bylaw. These authorities will review the list to deny, suspend, or revoke delinquent taxpayers' licenses and permits.

E. Payment Plans

The Treasurer will consider payment plans for parcels in tax title to allow delinquents to pay off their tax liens over a specified number of months. The Treasurer will actively monitor compliance with all payment plans, which will have the following features in common:

- Good faith payment of 25 percent of taxes owed; balance to be paid over 24 months
- Signed agreement between the Treasurer and taxpayer
- Specific amount to be paid each month
- Incorporation of payments for the current tax bill
- Statement that defaulting on the plan will trigger immediate foreclosure action by the Town

F. Redemption or Foreclosure

The primary policy goal of the Town's foreclosure process is getting outstanding amounts paid; however, it is also a policy goal to eventually achieve foreclosure on every persistently delinquent property on an annual basis.

On an annual basis, the Treasurer will identify all tax title properties older than 180 days that are not subject to a payment plan to initiate foreclosure procedures. The Treasurer is responsible for completing foreclosures for any properties below the "Land of Low Value" threshold, which is annually updated each spring by the Division of Local Services. The Treasurer will thoroughly review all other tax title properties before referring them to the tax title attorney for foreclosure processing in Land Court, beginning with those having the largest dollar value of taxes owed.

As manager of the service contract, the Treasurer will ensure the tax title attorney complies with the

objectives laid out in this policy section. The Treasurer will work with the tax title attorney to prepare parcels in tax title status for foreclosure, beginning by providing each Instrument of Taking. The tax title attorney will research the tax title properties and, also mail new collection enforcement letters to the taxpayers telling them of the importance of redeeming the property and warning of potential foreclosure action.

If a taxpayer or other party pays the outstanding amount on a tax title property, the Treasurer will prepare an Instrument of Redemption and file it at the Registry of Deeds, which removes the lien. Redemption can only be done prior to the property being foreclosed. If the obligation remains unpaid, the tax title attorney will proceed with foreclosure action in Land Court, possibly resulting in auctioning of the property.

EFFECTIVE DATE

This policy was adopted on [_____]

TAX RECAPITULATION

PURPOSE

To ensure the Town timely and appropriately charges taxes to property owners in support of the annual budget, this policy sets forth the roles, responsibilities, and deadlines associated with the tax recapitulation (recap) process. A timely and accurate annual recap helps ensure the Town complies with state statutes, avoids workflow disruptions in the Town's financial offices, and averts a cash shortfall and temporary borrowing costs.

APPLICABILITY

This policy applies to the Board of Selectmen and Town Administrator in their policymaking and management responsibilities and to the Board of Assessors in its role as principal overseer of the recap process. It also applies to the job responsibilities of the Director of Assessing, Town Accountant, Treasurer, and Town Clerk.

BACKGROUND

The property tax levy is Webster's largest source of revenue, which therefore makes the recap a vital component of the Town's fiscal operations. The Board of Assessors and Director of Assessing shepherd two core phases: the certification of property values and the setting of the tax rate. However, the full process begins with town meeting, involves many finance officials, and requires careful management, teamwork, and cooperation.

The four pages of the tax recap, along with its attached schedules, present the Town's annual budget plan for the fiscal year. These documents summarize all appropriations made by town meeting since the previous year's tax rate was set and identify revenue sources other than property taxes, such as state aid, local non-tax revenues, and reserves. The difference between budgeted appropriations and the revenue from these other sources must be raised through the property tax levy.

By completing the recap and submitting it to the Division of Local Services (DLS) for approval, the Town establishes its property tax levy and sets the tax rate for the year. The Town may issue actual tax bills only after DLS reviews the recap, verifies that it presents a balanced budget with a tax levy within Proposition 2½ limits, and approves the tax rate.

POLICY

At the Town Administrator's direction, Webster's financial team will annually complete the tax recap process no later than December 12, provide the tax bill file to the print vendor no later than December 15, and mail the actual tax bills by December 31. The Town Administrator will develop a realistic plan and timetable and actively monitor the team's progress through completion of the tax rate process.

A. Preparation and Town Meeting

A successful tax recap process requires a balanced annual budget, appropriate funding sources, and proper town meeting actions. Whereas the budget is typically adopted at the spring town meeting any expenditures authorized at this or other town meetings not recorded in the previous tax rate must also be included in the current recap process.

- The Board of Selectmen, through the Town Administrator and Town Counsel, will assure the

production of a properly written town meeting warrant, such that town meeting voters, under the Town Moderator's oversight, properly authorize annual budget appropriations that are funded by specific revenue sources (e.g., raise and appropriate, free cash, stabilization).

- The Board of Selectmen will ensure that any annual increase in the tax levy does not exceed the maximum amount allowed under Proposition 2½.
- The Town Accountant, Town Administrator, and Board of Selectmen will verify that the proposed budget is balanced.
- The Town Accountant will prepare a schedule of available funds as authorized for appropriation by town meeting.
- The Treasurer and Town Counsel will ensure debt issuance authorizations are proper.
- The Board of Selectmen will ensure that any proposal for a general override, debt exclusion, or capital exclusion is properly presented in the town meeting warrant and, if passed, put to a town-wide referendum.

B. Recording Legislative Action

To allow time for any required corrective measures, the following tasks will be completed within two weeks after town meeting:

- The Town Clerk will certify all appropriations approved since the last tax rate was set.
- The Town Accountant will reconcile all votes and authorized amounts.
- The Town Clerk, with the Town Accountant's assistance, will enter all town meeting appropriation votes by article (page 4 of the tax rate recap).
- From the certified town meeting authorizations, the Town Accountant will complete the following DLS forms:
 - enterprise receipts and appropriations (Form A-2)
 - free cash used (Form B-1)
 - available funds used (Form B-2).
- The Treasurer will verify that any reserved amount of bond premium is reported as a funding source (Form B-2).
- The Treasurer will prepare the debt exclusion report, including any use of reserved bond premiums (Form DE-1).

C. Following Fiscal Year Close

As part of closing the books for the fiscal year, the Town Accountant will continue completing the recap by:

- Reporting and documenting all deficits or other expenditures that must be funded, including debt and snow and ice (page 2 of the tax rate recap)
- Recording the actual amounts received for each type of local receipt (page 3, column (a) of the tax rate recap)
- Entering the amounts expected to be collected as local receipts using the revenue projections from the final budget approved at town meeting (page 3, column (b) of the tax rate recap)

D. Property Value Certification

Assessors must value all taxable real and personal property and must classify all real property into one of four classes (i.e., residential, open space, commercial/industrial, or personal) based on their use as of January 1. To do this, the Assessor will:

- Complete the property sales report (Form LA-3) for all sales over \$1,000 and submit it to

DLS for approval

- Analyze market conditions and set final property values in compliance with DLS certification standards
- Report the total assessed valuation for real and personal property by class (Form LA-4, which is transferred to page 1 of the recap)
- Report fiscal year tax base growth used to determine the levy limit under Proposition 2½ (Form LA-13, which is transferred to the Levy Limit Worksheet)
- Update any prior-year omitted and revised assessments that included growth (Form LA-13A, which is transferred to the Levy Limit Worksheet)

The Assessor will submit the above forms to DLS for review and certification.

E. Tax Rate Setting

After DLS has certified property values, the Board of Selectmen must hold a public hearing to decide tax policy. At this classification hearing, the Board of Selectmen may vote a single tax rate thereby allocating the tax levy proportionately across all property classes, or vote to shift the tax burden between the four classes. Leading to this hearing, the following must be completed:

- The Assessor and Town Accountant prepare an overlay analysis (Form OL-1)
- The Board of Assessors estimates and votes the amount of overlay to raise
- The Board of Assessors prepares a financial analysis of the various tax alternatives
- The Board of Selectmen votes on residential, small commercial, and open space exemptions
- The Board of Selectmen acknowledges excess levy capacity (Form LA-5)
- The Town Clerk attests to notice being given to taxpayers regarding the public hearing (Form LA-5)

F. Review and Submittal to DLS

The Board of Assessors, working through the Assessor, is responsible for submitting all forms and supporting documents to DLS for tax rate approval. All documents provide sufficient detail and attached to the applicable forms.

- The Assessor and Town Accountant will review all schedules, verify signatures, and verify that all proper documents are attached.
- The Town Accountant will ensure that all town meeting authorizations are represented and clearly reconcile to the amounts reported in the tax recap schedules.
- The Assessor will submit all forms to DLS.

G. Tax Commitment Creation

After DLS notifies the Town that the tax rate has been approved, the Assessor will create a tax commitment list and warrant duly signed by the Assessing Board members, and refer it to Town Collector to generate the actual tax bills.

Town of Webster Forecasting and Overlay Policies

EFFECTIVE DATE

This policy was adopted on [_____]

RETAINED EARNINGS POLICY FOR WATER AND SEWER ENTERPRISE FUNDS

It shall be the policy of the Board of Selectmen to maintain a level of unreserved retained earnings sufficient to address the financing of: working capital; revenue shortfalls; and unanticipated and emergency expenditures.

Unreserved retained earnings are cumulative surplus funds, as certified by the Massachusetts Department of Revenue, that are available for appropriation by Town Meeting to support any capital expense of the enterprise fund or to reduce user charges.

The rationale for, and the calculation of, unreserved retained earnings to be maintained by the Town are described below. The total amount of retained earnings to be maintained shall be equal to 80 percent of the sum of these individual calculations. The factor of 80 percent is based on the assumption that the likelihood of all factors occurring in one fiscal year is small; therefore, there is no need to maintain one hundred percent of the calculated level of retained earnings.

Working Capital: For those periods where monthly expenses exceed available cash, the water and sewer enterprises must have access to working capital to finance operations. In the absence of retained earnings, operations would require the use of General Fund cash which would reduce General Fund cash available for investment, and consequently reduce General Fund revenue. To avoid the use of General Fund cash as working capital for the water or sewer operations, retained earnings shall be maintained at a level to provide sufficient working capital to finance the operations of these enterprise funds. The amount retained for this purpose shall be equal to the average of the largest monthly operating deficit of the prior three years.

Revenue Shortfall: Annual water and sewer revenue is a function of the amount of water purchased by customers. If, in any year, purchases are less than projected, a revenue shortfall will occur. Retained earnings shall be maintained at a level sufficient to offset any loss in revenue due to unanticipated decreases in purchases. That level shall be equal to the difference of the consumption used for rate making purposes versus the lowest level of consumption for the prior five fiscal years, multiplied by the current sewer residential rate and water rate.

Reserve for Unanticipated and Emergency Expenditures: Retained earnings shall be maintained at a level sufficient to fund unanticipated or emergency capital or operating expenditures. It shall be the goal to maintain an amount equal to 15% of the annual sewer operating budget and 20% of the annual water operating budget.

Restoration of Depleted Retained Earnings: If, in any year, retained earnings fall below the targets established by this policy, it shall be the policy of the Board of Selectmen to set future rates to restore retained earnings to the target level over the following three year period.

NET SCHOOL SPENDING ALLOCATION

PURPOSE

The purpose of this letter is to describe the methodology used to obtain the Net School Spending requirements, as prescribed by the Department of Education's Educational Reform Formula. Both the Town Accountant of Webster, and the Assistant to the Superintendent for Business, have agreed upon this procedure.

Net School Spending Direct Expenses by Municipality:

Administrative Services: a) 33% of the Annual Audit Expense, b) 30% of the cost related to services provided by the Town Accountant and Town Treasurer, c) 50% of School related costs of the Personnel Board.

Maintenance: Accumulated labor and supply charges for services, using verifiable records provided by the DPW for School Property maintenance.

Employee Benefits: Retirement benefits for School Department Personnel other than teachers.

Insurance: Direct Town contributions associated with School Personnel for Health Insurance, Fleet, Fire, School Liability Insurance, Life, Medicare, Unemployment and Workers Compensation benefits.

Tuition: Charges to the Municipality for out of District Tuitions for School Choice and Charter Schools. Numbers will be provided by the DOR.

Other Town Expenditures as listed on Schedule 19. The reported expenditures are verified by the Annual Audit of the End of Year Report. This would include the following expenditures: Pupil Transportation, Debt Service, Other Fixed Charges, Other Community Services, Long-term Debt Service for School Construction, School Expenditures, Other (capital maintenance projects), Regional School Assessments.

APPENDIX I POLICY ADOPTION/REVISION LOG

As part of the annual budget process, financial officers and other personnel cited in each policy’s Applicability section will review the policy to ensure it is current. If a policy needs to be updated, the Town Administrator will draft proposed edits in consultation with the Town Accountant and other responsible parties. Revised policies will then be submitted to applicable Town policymakers for adoption. The Town Administrator will maintain an official record of the annual reviews and revision dates in the log below. Current policies inclusive of all amendments will be available in the Town Administrator’s office.

Policy	Date of Adoption	Last reviewed	Date of Amendment(s)

July

- 1 Collector** **Mail Preliminary Tax Bills**
 For communities that issue tax bills on a quarterly basis, the preliminary tax bills should be mailed by this date. (The preliminary bills for the 1st and 2nd quarters may be included in a single mailing.)

- 15 Accountant** **Certification Date for Free Cash - Any time after books are closed**
 Two weeks after the close of the fiscal year, the Town Accountant closes all accounts and submits the resulting balance sheet and supplemental documentation to DLS so that free cash can be certified.

- 15 Accountant** **Report Community Preservation Fund Balance - Any time after books are closed**
 After the close of the fiscal year, the Town Accountant submits the fund balance (Form CP-2) to DLS and notice is given to the Community Preservation Committee and other financial officers. The fund balance may be appropriated any time after the report.
 (Not applicable to Webster at this time)

- 15 School Business Officials** **Certification Date for Excess and Deficiency (E&D) Fund – Regional School Districts**
 Two weeks after the close of the fiscal year, the regional school finance official closes all accounts and submits the resulting balance sheet and supplemental documentation to DLS so that the E&D fund can be certified. A pre-closing trial balance or audited financial statements will not be accepted unless requested by the Director of Accounts.

- 15 Assessor/Pipeline Company** **Deadline for Appealing Commissioner's Pipeline Company Valuations to ATB**
- 15 Assessor/Telephone and Telegraph Company** **Deadline for Appealing Commissioner's Telephone and Telegraph Company Valuations to ATB**
- 20 DLS/BLA** **Notification of Changes in Proposed EQVs (even-numbered years only)**
- 20 DLS/BLA** **Notification of Changes in Proposed SOL Valuations (2017 only)**

August

- 1 Taxpayer** **Quarterly Tax Bills - Deadline for Paying 1st Quarterly Tax Bill without Interest**
According to [M.G.L. c. 59, §57C](#) this is the deadline for receipt of the 1st quarter preliminary tax payment without interest, unless the preliminary bills were mailed after July 1. If mailed by August 1, the quarterly payment is due August 1 or 30 days after the bills were mailed, whichever is later, and the 2nd quarterly payment is due November 1. If mailed after August 1, the preliminary tax is due as a single installment on November 1 or 30 days after the bills were mailed, whichever is later.
- 1 Taxpayer** **Annual Boat Excise Return Due**
- 1 Accountant** **Notification of Total Receipts of Preceding Year**
The total actual local receipts (e.g., motor vehicle excise, fines, fees, water/sewer charges) of the previous fiscal year must be included on Schedule A of the Tax Rate Recapitulation Sheet (recap), which is submitted by the Assessors to DLS. On the recap, the Accountant certifies the previous fiscal year's actual revenues, and the Assessors use this information to project the next fiscal year's revenues. Any estimates of local receipts on the recap that differ significantly from the previous year's actual receipts must be accompanied by documentation justifying the change in order to be approved by the DLS Director of Accounts.
- 10 Assessor** **Deadline for Appealing EQVs to ATB (even-numbered years only)**
- 10 Assessor** **Deadline for Appealing SOL Valuations to ATB (2017 only)**

- 31 DLS/BOA** **Issue Instructions for Determining Local Tax Rates**
DLS sends a copy of the Tax Rate Recap Sheet and its instructions to the Town.
- 31 State Treasurer** **Notification of Monthly Local Aid Distribution To**
view distribution breakdown, click
<http://www.mass.gov/treasury/cash-management/>

September

- 15 Assessor** **Submit Property Sales Report (Recommended)**
The Property Sales Report (LA-3) is used in conducting assessment/sales ratio studies and reports all property sales over\$1,000.
- 30 Accountant/
Assessor** **Jointly Submit Community Preservation Surcharge Report**
This report (Form CP-1) is a statement of the prior year's net Community Preservation Surcharge levy, and is used to distribute matching state funds on November 15th.
(Not applicable to Webster at this time)
- 30 Accountant/
Superintendent/
School Committee** **Jointly Submit End of Year Report to DESE**
Schedule 1 determines compliance with the Town's net school spending (NSS) requirement. Schedule 19 determines compliance with current year NSS requirement.
- 30 Accountant** **Submit Snow and Ice Report**
The Town Accountant submits the statement of snow and ice expenditures and financing sources for the previous fiscal year to DLS.
- 30 Treasurer** **Year-end Cash for the Previous Fiscal Year (due upon submission of the balance sheet for free cash certification)**
Reconciliation is the process of comparing the Treasurer's accounts to the Town Accountant's ledger balance to determine if they are consistent and making any necessary corrections. When the reconciliation is complete, the Town Accountant should indicate agreement with the Treasurer's balances. Reconciliations are required annually, but the Town should reconcile monthly to produce reliable reports and monitor the cash practices of the Treasurer's office. The year-end report as of June 30th must be completed and submitted to DLS.
- If the Accountant and Treasurer do not consistently reconcile cash accounts or if the reconciliations indicate variances, the Town Administrator and Selectmen should inquire as to the reasons.

30 Treasurer **Submit Statement of Indebtedness**
[M.G.L. c. 44, §28](#) requires the Director of Accounts to maintain complete and accurate records of indebtedness by towns. This statute also requires Treasurers to furnish any other information requested by the Director in respect to the authorization aid issuance of loans.

The Statement of Indebtedness is the annual report required from Treasurers to accomplish this purpose. Treasurers should reconcile the debt records with the Town Accountant before filing the statement to ensure that it and balance sheet are in agreement.

30 State Treasurer **Notification of Monthly Local Aid Distribution To**
 view distribution breakdown, click
<http://www.mass.gov/treasury/cash-management/>

October

1 Taxpayer **Deadline for Applying to Have Land Classified as Agricultural/Horticultural Land or Recreational Land, M.G.L. c. 61A and c. 61B**
 According to [M.G.L. c. 61A, §§6 and 8](#), and [c. 61B, §§3 and 5](#), this is the deadline to apply to Assessors to have land valued, taxed, and classified as agricultural/horticultural or recreational land in the next fiscal year, unless a revaluation program is being conducted for that fiscal year. Under M.G.L. c. 59, §38 and DLS guidelines, Assessors must review all property valuations and make adjustments to ensure current fair cash valuations every year. Because the revaluation program is conducted every year, taxpayers who do not submit their applications by October 1 have until 30 days after the actual tax bills for the fiscal year are mailed to apply.

1 Taxpayer **Deadline for Submitting Forest Land Certification and Management Plan M.G.L. c. 61**
 According to [M.G.L. c. 61, §2](#), this is the deadline to submit to the Assessors the State Forester's certification and approved management plan in order to have the land valued as classified forest land for 10 years beginning in the next fiscal year.

15 Superintendent **Submit School Foundation Enrollment Report to DESE**

15 Assessor **Begin Work on Tax Rate Recapitulation Sheet**
 For communities that issue tax bills on a quarterly basis, the Assessors should begin gathering tax recap information in order to have enough time for the tax rate to be set and actual tax bills mailed by December 31.

Tax Rate Recap:

Page 1 (Tax Rate Summary) – This page provides the summary of the total amount to be raised, identifying what part is the tax levy with the components and rates. Assessors should compare the proposed tax levy to the levy limit. If the Town does not levy to its limit, the remaining levy is referred to as excess levy capacity. Excess levy capacity is lost to the Town for the current fiscal year although it will always remain in the levy limit calculation.

Page 2 (Amounts to be Raised) - This section includes town meeting appropriations and other local expenditures not appropriated, such as overlay deficits, revenue deficits, state and county charges, cherry sheet offset items, and allowance for abatements and exemptions. By comparing this information to the prior year(s), any significant expenditure changes can be determined.

Page 2 (Estimated Receipts and Other Revenue Sources) - This section includes cherry sheet receipts, estimated local receipts, and amounts appropriated from free cash and other available funds. By comparing these receipts to prior year(s) receipts, and to remaining free cash and available fund balances, the Selectmen can understand trends and usage of non- property tax revenues.

Page 3 (Local Receipts Not Allocated) – This page reports prior year actual receipts and estimated receipts for the current year for all revenue not reported on other schedules. By comparing these receipts to prior year(s), the Selectmen can recognize trends and changes in these revenues.

Page 4 (Certification of Appropriations and Source of Funding) This page details any financial votes of Town Meeting (Annual and Special) for the current tax year and any for the prior year not previously reported on last year's recap.

November

- 1 Taxpayer** **Quarterly Tax Bills - Deadline for Paying 2nd Quarterly Tax Bill without Interest**
 According to [M.G.L. c. 59, §57C](#), this is the deadline for the 2nd quarter tax payment.
- 1 Treasurer** **Deadline for Payment of First Half of County Tax**
 (Not applicable to Webster)
- 1 Selectmen and Board of Assessors** **Hold Classification Hearing (Recommended)**
 The Boards of Selectmen and Assessors hold a public hearing to determine whether different or uniform rates will apply to the various classifications of real property.
- 15 DESE** **Notify Districts of Any Prior-Year School Spending Deficiencies**
 By this date, or within 30 days of a complete-End-of-Year Report (see September 30), DESE notifies communities/districts in writing of any additional school spending requirements.
- 30 Accountant** **Submit Schedule A for Prior Fiscal Year**
 This report is a statement of the revenues received, expenditures made, and all other transactions related to the town's finances during the previous fiscal year. The Schedule A classifies revenues and expenditures into detailed categories that provide information essential for an analysis of revenues and expenditures generated by various departments. This data, like other financial information reported to DLS, is entered into DLS's Municipal Data Bank; as such, DLS may provide time series, comparative and other types of analyses at the request of the town. This information is also sent to the US Census Bureau and eliminates a prior federal reporting requirement. Failure to file by November 30 may result in withholding major distributions of state aid until the Schedule A is accepted by BOA.
- 30 Assessors** **Submit Tax Recap and all Schedules to DLS/BOA**
- 30 Selectmen/Town Administrator** **Review Budgets Submitted by Department Heads**
 This date will vary depending on budget calendar.
- 30 State Treasurer** **Notification of Monthly Local Aid Distribution To**
 view distribution breakdown, click <http://www.mass.gov/treasury/cash-management/>

December

- 1 Accountant/
Superintendent/
School Committee** **Submit Amendments to End of School Year Report to DESE**
Last filing date to impact next year's Chapter 70 State Aid.
- 31 Water/Sewer** **Commissioners Deadline for Betterments to be included on Next Year's Tax Bill ([M.G.L. c. 80, §13](#); [c. 40, §42I](#) and [c. 83, §27](#))**
- 31 Selectmen/Town
Administrator** **Begin to Finalize Budget Recommendations**
The budget is being finalized for review by Finance Committee.
- 31 Assessor** **Mail 3ABC Forms to Charitable Organizations and Forms of List to Personal Property Owners**
- 31 Collector** **Deadline for Mailing Actual Tax Bills**
For communities that issue tax bills on a quarterly basis, the actual tax bills should be mailed by this date. (The actual bills for the 3rd and 4th quarters may be included in a single mailing.)
- 31 State Treasurer** **Notification of Monthly Local Aid Distribution To**
view distribution breakdown, click
<http://www.mass.gov/treasury/cash-management/>

January

- 1 Assessor** **Property Tax Assessment Date**
This is the effective date for statewide valuation and assessment of all property for the following fiscal year.
- 31 DESE** **Notify Districts of Estimated Net School Spending Requirements for the Next Year**
As soon as the Governor releases the ensuing year's budget, DESE notifies districts of the estimated NSS requirements. These figures are subject to change based on the final proved state budget.
- 31 DLS/BLA/Pipeline
Company** **Filing Deadline Pipeline Company Forms of List**
- 31 State Treasurer** **Notification of Monthly Local Aid Distribution To**
view distribution breakdown, click
<http://www.mass.gov/treasury/cash-management/>

February

- 1 Taxpayer** **Quarterly Tax Bills - Deadline for Paying 3rd Quarterly Tax Bill without Interest**
 According to [M.G.L. c. 59, §57C](#), this is the deadline for receipt of the 3rd quarter actual tax payment without interest, unless the actual tax bills were mailed after December 31. If mailed after December 31, the actual tax is due as a single installment on May 1 or 30 days after the bills were mailed, whichever is later.
- 1 Taxpayer** **Quarterly Tax Bills - Application Deadline for Property Tax Abatement**
 According to [M.G.L. c. 59, §59](#), applications for abatements are due on Feb. 1 unless actual tax bills were mailed after December 31. In that case, they are due May 1 or 30 days after mailing, whichever is later.
- 28 Finance Committee** **Continue Budget Review and Develop Recommendations**
 This date will vary depending on the date of Town Meeting.
- 28 State Treasurer** **Notification of Monthly Local Aid Distribution To**
 view distribution breakdown, click <http://www.mass.gov/treasury/cash-management/>

March

- 1 DLS/MDM** **Notification of Cherry Sheet Estimates for the Following Year**
 (pending action on taken by the Legislature)
 The cherry sheet is an estimate of 1) receipts: local reimbursement and assistance programs as authorized by law and appropriated by the General Court and 2) assessments: state and county assessments and charges to local governments. All amounts listed on the cherry sheet are estimates. Actual receipts and charges are determined based on detailed formulas or guidelines for each program. Cherry sheets are posted on the DLS website and updated at each juncture of the state budget process.
- 1 Personal Property Owner** **Submit Form of List**
 This is a listing of all personal property filed by owners with the Assessors each year for the purpose of determining taxes in the next fiscal year. The return is due on or before March 1, but the deadline may be extended by the Assessors to a date no later than the date that abatement applications are due.
- 1 Charitable Organizations** **Submit 3ABC Forms**
 This is a return of property held for charitable purposes filed by a charitable organization with the Assessors each year in order to be eligible for

exemption from taxation for the next fiscal year. The return is due on or before March 1, but the deadline may be extended by the Assessors to a date no later than the date that abatement applications are due.

**1 DLS/BLA/
Telephone and
Telegraph Company** **Filing Deadline for Telephone and Telegraph Company Forms of List**

31 State Treasurer **Notification of Monthly Local Aid Distribution To**

<http://www.mass.gov/treasury/cash-management/>

April

1 Taxpayer **Deadline for Applying for Property Tax Exemptions for Persons**
If tax bills are mailed after January 1, taxpayers have 3 months from the mailing date to file applications for exemptions.

30 State Treasurer **Notification of Monthly Local Aid Distribution To**
view distribution breakdown, click
<http://www.mass.gov/treasury/cash-management/>

May

1 Taxpayer **Quarterly Tax Bills - Deadline for Paying 4th Quarterly Tax Bill without Interest**
According to [M.G.L. c. 59, §57C](#), this is the deadline for the 4th quarter tax payment.

1 Treasurer **Deadline for Payment of Second Half of County Tax**
(Not applicable to Charlton)

**1 Accountant/
Treasurer** **Notification of Amount of Debt Due in Next Fiscal Year**
As required by [M.G.L. c. 44, §16](#), the Accountant or Treasurer must notify the Assessors of all debt due in the next fiscal year. The town is required to pay its debts, appropriated or not. Any debt service not covered by appropriations is added to the "Other Local Expenditures" category found on page 2 of the Tax Recap Sheet.

It is important that the Assessors have this information in order to avoid setting a tax rate lower than required and raising insufficient revenue to cover the town's expenditures.

- 31 State Treasurer** **Notification of Monthly Local Aid Distribution To**
view distribution breakdown, click
<http://www.mass.gov/treasury/cash-management/>

June

- 1 Clerk** **Certification of Appropriations**
Appropriations are certified immediately after Town Meeting so that the Town Accountant may set up accounts for each department in the town for the next fiscal year.
- 1 Assessors** **Determine Valuation of Other Municipal or District Land**
In certain communities where land is owned by another community or district, the value of the land is determined by the Assessors in the year following a revaluation year, for in-lieu-of-tax payments.
- 1 DLS/BLA** **Notification of Proposed EQVs (even-numbered years only)**
- 1 DLS/BLA** **Notification of SOL Valuations (2017 and every 2 years after)**
- 10 DLS/BLA** **Concludes Public Hearings on Proposed EOVs (even numbered years only)**
- 10 DLS/BLA** **Concludes Public Hearings on Proposed SOL Valuations (2017 only)**
- 15 DLS/BLA** **Commissioner Determines and Certifies Pipeline Valuations**
- 15 DLS/BLA** **Commissioner Determines and Certifies Telephone and Telegraph Company Valuations**
- 15 Assessor** **Make Annual Preliminary Tax Commitment**
For communities that issue tax bills on a quarterly basis, the Assessors should make the preliminary tax commitment. The commitment must be based on the prior year's net tax on the property and may not exceed, with limited exceptions, 50% of that amount. This should be done early enough for the annual preliminary quarterly bills to be mailed by July 1.
- 20 Assessor** **Final Date to Make Omitted or Revised Assessments**
As required by [M.G.L. c. 59, §§75](#) and [76](#), if a property is inadvertently excluded or mistakenly underassessed on the warrant for property taxes, it is the Assessor's role to correct the mistake and assess the property correctly. Such an assessment may not be made later than June 20 of the taxable year or 90 days after the date the tax bills are mailed, whichever is later.

- 30 Assessor** **Overlay Surplus Closes to Surplus Revenue**
 The Assessors may certify any balance in the overlay account in excess of the remaining amount of the warrant to be collected or abated. The transfer from overlay to the overlay surplus account is done on the Assessors' initiative or within 10 days of a written request by the Selectmen. Once in the overlay surplus account, these funds may be appropriated for any lawful purpose. Any balance in the overlay surplus account at the end of the fiscal year will be closed to surplus revenue and, eventually, free cash.
- 30 Assessor** **Physical Inventory of all Parcels for Communities that Accepted [M.G.L. c. 59, §2A\(a\)](#)**
- 30 Taxpayer** **Deadline for Applying to Have Land Classified as Forest Land, M.G.L. c. 61**
 According to [M.G.L. c. 61, §2](#), this is the deadline to apply to the State Forester to have land certified as forest land.
- 30 Assessor** **Submit Annual Report of Omitted or Revised Assessments**
- 30 Assessor** **Last Day to Submit Requests for Current Fiscal Year Reimbursements of Exemptions Granted Under the Various Clauses of [M.G.L. c. 59, §5](#)**
 If an exemption is granted to a residential property owner, the property tax is lowered, and the town collects fewer tax revenues than anticipated. These exemptions are partially reimbursed by the state as indicated under "Exemptions" section B of the cherry sheet.
- It is the responsibility of the Assessor to submit all exemptions to DLS so that the town maybe reimbursed for statutory exemptions. If the Assessors fail to submit a request, the town's loss of tax revenues will not be offset by exemption reimbursements from the state. These reimbursements may not be filed retroactively for any year.
- If tax bills are mailed late, the Assessor may submit requests for reimbursement until August 20.
- 30 State Treasurer** **Notification of Monthly Local Aid Distribution To**
 view distribution breakdown, click
<http://www.mass.gov/treasury/cash-management/>

Additional Information

Exception to Due Dates

[M.G.L. c. 4, §9](#) states that if the date for any statutory action or payment falls on a Sunday or legal holiday, that action may be performed or payment made on the next succeeding business day. This rule also applies to actions required by or payments due on a Saturday in those communities that accepted [M.G.L. c. 41, §110A](#) permitting public offices to remain closed on that date.

The due date for any local property tax payment, or abatement or exemption application, is also extended by [M.G.L. c. 59, §§57, 57C](#), and [59](#) when municipal offices are closed due to a weather-related or other public safety emergency.

APPENDIX III INDIRECT COST CALCULATION METHODOLOGIES

1. **Actual cost** uses specific schedules to provide documentation of indirect costs, which generally include debt service and life, health, and property insurances.
2. The **transaction-based** method is calculated based on the number transactions attributed to a service as a percentage of the whole. For example, the number of bills issued by the collector for water service as a percentage of the total bills issued. This percentage is applied against the collector’s total budget, including health and life insurance, Medicare, retirement, and any workers’ compensation attributable to the department.

$$\begin{array}{rcccl}
 \frac{\text{Number of transactions for the}}{\text{Water Department}} & & \text{Total budget plus} & & \\
 & & \text{benefits of the} & & \\
 & & \text{department} & & \\
 & & \text{processing} & & \\
 & & \text{transactions for the} & & \\
 & & \text{enterprise} & & \\
 \hline
 \text{Total number of transactions} & \times & & = & \text{Indirect} \\
 \text{processed by the non-enterprise} & & & & \text{Departmental} \\
 \text{department} & & & & \text{Salaries}
 \end{array}$$

3. A department or official may be able to provide a reasonable **estimate of support**, or estimate of the average time spent to support a particular service. For example, the town administrator estimates that he/she spends on average four hours weekly, or 10 percent of his/her time, on water-related activities (e.g., board meetings, water commitment/billing, administration of grants, and clerical tasks). This percentage is applied against the department’s or official’s salary and benefits, including health and life insurance, Medicare, retirement, and any workers’ compensation.

$$\begin{array}{rcccl}
 \frac{\text{Hours worked on enterprise activities}}{\text{per year by individual(s)}} & \times & \text{Salary and benefits of} & = & \text{Indirect} \\
 & & \text{individual(s) working} & & \text{Departmental} \\
 & & \text{on enterprise} & & \text{Salaries} \\
 \text{Total hours worked per year by} & & & & \\
 \text{individual(s)} & & & &
 \end{array}$$

Any department’s or official’s expenses related to water activities are charged directly to the water budget.

4. The **proportional** method is a straightforward calculation of the water department’s direct budget (net of debt) as a percentage of the gross general fund (net of debt) and enterprise fund (net of debt) budgets. This percentage is applied against a town department’s budget, including employees’ benefits, that provides support to the water department.

APPENDIX IV
MASSACHUSETTS COLLECTORS AND TREASURERS ASSOCIATION
ANNUAL SCHOOL HANDOUTS, COURSE 202

MASSACHUSETTS COLLECTORS
& TREASURERS ASSOCIATION

46th Annual School – August 16, 2016

INVESTMENT POLICY STATEMENTS

TOWN OF _____
INVESTMENT POLICY STATEMENT

The primary purpose of this Investment Policy Statement (IPS) is to provide a clear understanding between the Town/City of _____ (Client) and _____ (Investment Manager/Advisor) regarding

the objectives, goals, risk tolerance, and investment guidelines established for the investment of town/city funds. The secondary purpose is to describe for the Office of Treasurer & Collector of Taxes, the public and staff the underlying logic and philosophy supporting this Statement.

I. The Investment of General Funds, Special Revenue Funds, Enterprise Funds, and Capital Projects Funds

A. Scope

This section of the IPS applies only to short term operating funds such as general funds, special revenue funds, enterprise funds, bond proceeds and capital project funds. Section two will deal with trust funds, and any other funds with special circumstances such as stabilization funds. A separate Contributory Retirement Board, either local or county, is responsible for the investment of the pension funds.

B. Investment Instruments

Note: Public investments in Massachusetts are not protected through provisions in State law. Therefore, they are largely uncollateralized. Many banking institutions are willing to put up collateral, albeit at a cost to the entity resulting in a lower interest rate. The Treasurer negotiates for the highest rates possible, consistent with safely principles.

The Treasurer may invest in the following instruments:

- Massachusetts State pooled fund: Unlimited amounts (Pool is liquid) The Massachusetts Municipal Depository Trust (MMDT), an investment pool for state, local, county and other independent governmental authorities, is under the auspices of the State Treasurer. It invests in Bankers Acceptances, Commercial Paper of high quality, Bank Certificates of Deposit, Repurchase agreements (Repos), and U. S. Treasury Obligations. It has Federal Deposit Insurance Corporation (F.D.I.C.) pass- through insurance on the CD's up to the standard limits and takes delivery on the Repos and Treasuries. Under Government Accounting Standards Board Regulation (GASB m), it is not considered an uncollateralized product.
- U. S. Treasuries that will be held to maturity: Unlimited amounts (Up to one year maturity from date of purchase)
- U.S. Agency obligations that will be held to maturity. Unlimited amounts (Up to one year maturity from date of purchase)
- Bank accounts or Certificates of Deposit ("CDs") (Up to one year) which are fully collateralized through a third party agreement: Unlimited Amounts
- Bank accounts and CDs (Up to one year) insured by F.D.I.C. up to the coverage limit. All bank accounts and CDs in one institution are considered in the aggregate for the insurance coverage limit. In some cases Banking Institutions carry additional insurance. Depository Insurance Fund (D.I.F.): Contact banking representative for amounts of coverage.

- Unsecured bank deposits of any kind such as other checking, savings, money market, or Certificates of Deposit accounts at Banks that do not fit the above categories. These investments are subject to the following limitations: No more than 5% of an institution's assets and no more than 25% of a municipality's cash may be comprised of unsecured bank deposits. This percentage maybe increased for not more than 30 days during times of heavy collection or in anticipation of large payments that will be made by the Town in the near future. These payments may be for such items as debt service payment or regional school assessments. Their credit worthiness will be tracked by Veribanc, or other bank credit worthiness reporting systems. They will be diversified as much as possible. CDs will be purchased for no more than one year and will be reviewed frequently.
- Money Market Mutual Funds that are registered with the Securities and Exchange Commission that have received the highest possible rating from at least one nationally recognized statistical rating organization and as otherwise referenced in the Massachusetts General Law Chapter 44 Section 55.

C. Diversification

Diversification should be interpreted in two ways: in terms of maturity as well as instrument type and issuer. The diversification concept should include prohibition against over concentration of maturities, as well as concentration in a specific institution. With the exception of U.S. Treasury obligations or investments fully collateralized by U.S. Treasuries or agencies, and State pools (MMDT), no more than 10% of the Community's investments shall be invested in a single financial institution.

D. Authorization

The Treasurer has authority to invest entity funds, subject to the statutes of the Commonwealth Massachusetts General Law Chapter 44 Section 55, 55A, & 55B.

E. Restrictions

Chapter 44, Section 55 set forth several restrictions that the Treasurer must be aware of when making investment selections.

- A Treasurer shall not at any one time have on deposit in a bank or trust company an amount exceeding 60% of the capital and surplus of such bank or trust company, or banking company, unless satisfactory security is given to it by such bank or trust company, or banking company for such excess.
- The treasurer shall not make a deposit in any bank, trust company or banking company with which he is, or for any time during the three years immediately preceding the date of any such deposit was, associated as an officer or employee.
- All securities shall have a maturity from date of purchase of one year or less.
- Purchases under an agreement with a trust company, national bank or Banking Company to repurchase at not less than original purchase price of said securities on a fixed date shall not exceed ninety days.

F. Legal References

Massachusetts General Law Chapter 44, Section 55
Massachusetts General Law Chapter 44, Section 55A
Massachusetts General Law Chapter 44; Section 55B

II. The Investment of Long Term Funds

A. Scope

This section of the IPS applies only to funds that are designated as long term, i.e. trust funds, stabilization funds, cemetery perpetual care, community preservation act and other funds the town may have set aside for long term use.

All accounts will be maintained separately receiving their proportionate interest and any realized and unrealized gains or losses. The account will be established as a pooled investment portfolio unless otherwise stated. Any additional accounts will be maintained in this same manner.

B. Authority

Massachusetts General Law Chapter 44, section 54 pertains to the investment of Trust Funds. All trust funds shall fall under the control of the entity's Treasurer unless otherwise provided or directed by the donor.

C. Investment Instruments

M.G.L. Chapter 44 section 54 states that money should be deposited into savings bank, trust companies incorporated under the laws of the Commonwealth, banking companies incorporated under the laws of the Commonwealth which are members of the Federal Deposit Insurance Corporation, or national banks, or invested in participation units in a combined investment fund under section thirty-eight A of chapter twenty-nine, or in a paid-up shares and accounts of and in co-operative banks, or in shares of savings and loan associations or in share or savings deposits of federal savings and loan associations doing business in the commonwealth.

Additionally the Community may invest such funds in securities, other than mortgages or collateral loans, which are legal for the investment of funds of savings banks under the laws of the commonwealth; provided, that not more than fifteen percent (15%) of any such trust funds shall be invested in bank stocks and insurance company stocks, nor shall more than one and one-half percent (1 ½%) of such funds be invested in the stock of any one bank or insurance company.

The Treasurer may invest in the following instruments:

- U. S. Treasuries that maybe sold prior to maturity: Unlimited amounts (With no limit to the length of maturity from date of purchase)
- U.S. Agency obligations that maybe sold prior to maturity. Unlimited amounts (With no limit to the length of maturity from date of purchase)

- Bank accounts or Certificates of Deposit ("CDs") Unlimited amounts (With no limit to the length of maturity from date of purchase), which is fully collateralized through a third party agreement:
- Bank accounts and CDs (With no limit to the length of maturity from date of purchase) fully insured by F.D.I.C. and in some cases also Depository Insurance Fund of Massachusetts (D.I.F.): All bank accounts and CDs in one institution are considered in the aggregate to receive the insurance coverage limit.
- Unsecured bank deposits of any kind such as other checking, savings, money market, or Certificates of Deposit accounts at Banks that do not fit the above categories. These investments are subject to the following limitations: These investments will be limited to no more than 5% of an institution's assets and no more than 25% of a municipality's cash. This percentage may increase for not more than 30 days during times of heavy collection or in anticipation of large payments that will be made by the Community in the near future. These payments may be for such items as debt service payment or regional school assessments. Their creditworthiness will be tracked by Veribanc, or other bank credit worthiness reporting systems. They will be diversified as much as possible. CDs will be purchased with no limit to the length of maturity from the date of purchase and will be reviewed frequently.
- Common and preferred stock that are listed in the List of Legal Investments.
- Investment Funds that are listed in the List of Legal Investments.
- All other items not separately identified here that are listed in the List of Legal Investments.

D. Standards of Care

The standard of prudence to be used by the Treasurer shall be the "Prudent Person" standard and shall be applied in the context of managing an overall portfolio. The Treasurer acting in accordance with written procedures and this IPS, and exercising reasonable due diligence, shall be relieved of personal responsibility for an individual security's credit risk or market price changes, provided the purchases and sale of securities is carried out in accordance with the terms of this IPS.

Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs; not for speculation, but for investment considering the probable safety of their capital as well as the probable income to be derived.

In addition this section would also apply to M.G.L. Chapter 44 Section 55A which refers to the liability of the Treasurer for losses due to bankruptcy.

E. Diversification

Diversification should be interpreted in two ways: in terms of maturity as well as instrument type and issuer. The diversification concept should include prohibition against overconcentration of maturities, as well as concentration in a specific institution, with the exception of U.S. Treasury obligations or investments fully collateralized by U.S. Treasuries or agencies.

F. Legal References

Massachusetts General Law Chapter 44, Section 54
Massachusetts General Law Chapter 44, Section 55A
Massachusetts General Law Chapter 44, Section 55B

Trust Funds may be co-mingled and invested in any instruments allowed by the Commonwealth of Massachusetts list of Legal Investments Legal issued by the Banking Commissioner each July. Each trust fund must be accounted for separately. Chapter 44 Section 54 sets forth that Treasurers may invest in instruments that are legal for savings banks. This list of investments is included in the Commonwealth of Massachusetts List of Legal Investments, Chapter 167 Section 15A.

III. General Provisions

A. Objective

Massachusetts General Laws, Chapter 44, section 55B requires the Entity's Treasurer to invest all public funds except those required to be kept uninvested for purposes of immediate distribution.

This section also requires that invested funds are to be placed at the highest possible rate of interest reasonably available, taking into account the acceptable levels of safety, liquidity and yield. Therefore, these guidelines are intended to further the objective of securing the highest reasonable return available that is consistent with safety of principal while meeting the daily cash requirements for the operation of the entity's business.

- Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to preserve capital through the mitigation of credit risk and interest rate risk. These risks shall be mitigated by the diversification and prudent selection of investment instruments, and choice of depository. Credit risk is the risk of loss due to the failure of the security issuer or backer. Interest rate risk is the risk that the market value of the security will fall due to changes in general interest rates.
- Liquidity is the next most important objective. The overall investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. Since all possible cash demands cannot be anticipated, the treasurer shall attempt to carry out investment activities in a manner that provides for meeting unusual or unexpected cash demands without requiring the liquidation of investments that could result in forfeiture of accrued interest earnings, and loss of principal in some cases.
- Yield is the third, and last, objective. Investments shall be undertaken so as to achieve a fair market average rate of return^ taking into account safety and liquidity constraints as well as all legal requirements.

B. Risk Tolerance

- Credit Risk

"Credit risk" is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The Community will manage credit risk several ways. There will be no limit to the amount of United States Treasury and United States Government Agency obligations. In regards to other investments, the Community will only purchase investment grade securities with a high concentration in securities rated A or better. The Community may invest in the Massachusetts Municipal Depository Trust (MMDT) with no limit to the amount of funds placed in the fund. The Community may place funds in banking institutions as stated in Section C of this IPS.

- Custodial Risk

The "custodial credit risk" for deposits is the risk that, in the event of the failure of a depository financial institution, a municipality will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a municipality will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

The Community will review the financial institution's financial statements and the background of the Advisor. The intent of this qualification is to limit the Community's exposure to only those institutions with a proven financial strength. Capital adequacy of the firm, and overall affirmative reputation in the municipal industry. Further, all securities not held directly by the Community, will be held in the Community's name and tax identification number by a third-party custodian approved by the Treasurer and evidenced by safekeeping receipts showing individual CUSIP numbers for each security.

- Concentration of Credit Risk

"Concentration of credit risk" is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

The Community will minimize concentration of credit risk by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

- Interest Rate Risk

"Interest rate risk" is the risk that changes in interest rates will adversely affect the fair value of an investment.

The Community will manage interest rate risk by managing duration in the account.

- Foreign Currency Risk

"Foreign currency risk" is the risk that changes in foreign monetary exchange rates will adversely affect the fair value of an investment or a deposit.

The Community will limit investment in any instrument exposed to foreign currency risk.

C. Ethics

The Treasurer (and Assistant Treasurer) shall refrain from any personal activity that may conflict with the proper execution of the investment program or which could impair or appear to impair ability to make impartial investment decisions. Said individuals shall disclose to the Chief Executive Officer any material financial interest in financial institutions that do business with the Community. They shall also disclose any large personal financial investment positions or loans that could be related to the performance of the Community's investments.

D. Relationship with Financial Institutions

Financial institutions should be selected first and foremost with regard to their financial soundness and stability. The Community subscribes to the Veribanc Rating Service to evaluate the banking institutions with

which it chooses to establish relationships. Brokers should be recognized, reputable dealers and members of the Financial Industry Regulatory Authority (FINRA).

In instances where the Community does not purchase the Veribanc Rating Service, the Treasurer should request the banking institution's Veribanc rating from all of the banking institutions that are working with the Community on a quarterly basis.

When using the Veribanc Rating Service the Treasurer may invest in such banks that show a green rating in a particular quarter. If a rating is yellow the Treasurer should contact the appropriate banking institution and request in writing an explanation of the change in rating and the expected timetable for it to be changed to green. If for a second quarter such rating is not green, the Treasurer should consider removing all funds that are not collateralized, or carries some form of depositors insurance. If a rating moves to red all money should be immediately collateralized or covered by some form of depositors insurance or be removed from the banking institution.

The Treasurer shall require any brokerage houses and broker/dealers wishing to do business with the municipality to supply the following information to the Treasurer on an annual basis:

- Financial statements
- If acting as a Registered Investment Advisor, copy of their most recent Form ADV
- A statement that the Advisor has read the municipality's IPS and will comply with it on an annual basis

E. Reporting Requirements

On a quarterly basis, a report containing the following information will be prepared by the Treasurer and distributed to the Chief Executive Officer, Town Manager, and/or Finance Committee, as appropriate. The quarterly report will include the following information, as a minimum requirement:

- A listing of the individual accounts and individual securities held at the end of the reporting period.
- A listing of the short-term investment portfolio by security type and maturity to ensure compliance with the diversification and maturity guidelines established in the "Diversification" section of this IPS.
- A summary of the income earned on a monthly basis and year-to-date basis shall be reported.
- The report should demonstrate the degree of compliance with the tenets set forth in the IPS.
